The Grammar Plan Book Constance Weaver,2007 Thanks to Connie Weaver generations of teachers have come to understand that the most efficient way to teach grammar that s relevant for writing is to embed it within writing instruction Now her Grammar Plan Book is designed with precisely one thing in mind to be the best resource you ve ever used for teaching grammar to strengthen writing This new book helps you apply a limited amount of grammar instruction directly to writing and enables you to map out instruction in the way that best serves the needs of your students A complete planning tool The Grammar Plan Book has two complementary parts Part One describes an overarching framework for high quality grammar instruction in conjunction with the process of writing It offers engaging examples of effective teaching demonstrations of how that teaching has improved students use of grammatical options in writing suggestions for deciding which editing conventions to teach an informal analysis of the grammatical content of typical ACT practice exams The Plan Book also contains ideas for encouraging students to make independent use of what they ve learned in their own writing and about how to apply grammatical insights to enhance and improve their writing from adding details to editing appropriately Then in Part Two Weaver presents an exceptional tool for preparing to teach grammar related to improving writing a minimal grammar handbook for teachers that doubles as a lesson planner Everything you need to know to teach major grammatical options stylistic features and conventions is included basic grammatical functions within the sentence grammatical options for adding details and sentence fluency connectors transitions for organizational flow parallelism and other rhetorical devices for emphasis and effect style and voice stylistic options dialect versus standard for different audiences and purposes conventions most important for edited American English rules that don t necessarily rule effective published writing With a designated column for your notes special lay flat binding for your convenience and helpful comprehensive coverage of important grammatical concepts The Grammar Plan Book is designed with one thing in mind to be the best resource you ve ever used for teaching grammar to strengthen writing

Tools, Not Rules Tommy Thomason,Geoff Ward,2010 If you want to start an argument in a teachers lounge bring up the topic of how best to teach grammar There is a wide spectrum of opinion Traditionalists claim that we must explicitly teach grammar Students drill the basics and diagram sentences Sometimes their study and drills take the place of writing but these teachers claim that good writing demands good grammar At the opposite end of the spectrum are teachers who claim that the best way to learn grammar is to write thereby being forced to use grammar in writing and editing They reason that students will learn grammar in the context of actually using it without all the drills and worksheets They trust the writing

process to instill an appreciation for grammar instead of actually teaching it Teachers on the write to learn grammar side claim that students who are only taught grammar rules might pass tests but since they didn t learn in the context of writing they typically don t apply the rules when they write Grammar traditionalists say students in writing classes never learn grammar at all because it is not explicitly taught In Tools Not Rules authors Tommy Thomason and Geoff Ward take the middle ground position that grammar should be taught as part of the writing process Tommy Thomason is a veteran journalist and university journalism professor at TCU Geoff Ward is a well known Australian professor and associate dean from James Cook University in Townsville Both have written several books and work extensively with American teachers Publisher s website <http://www.eloquentbooks.com/ToolsNotRules/TeachingGrammarInTheWritingClassroom.html>

Teaching Grammar in the Context of Writing and Literature Susan Collins Norris,2003 As the result of classroom observations analysis of student writing and reflection and evaluation of my teaching practices I reached the conclusion that the strategies I had been using for teaching grammar were ineffective There was little if any evidence that the grammar objectives that I covered in instruction were being retained by the students or transferred to their writing This inquiry provided me the opportunity to read the latest research on grammar instruction and to apply new methods in my classroom As a result of my reading I learned why grammar instruction that is isolated from writing is ineffective and the necessity of helping students understand the different types of talk that we as language users utilize in and out of school home and work situations I experimented with applying the research I read in my own classroom Although all errors did not miraculously vanish from my students writings I was able to see a marked improvement as I began to address individual needs of the writers through mini lessons and students began to see the role grammar plays in helping them to communicate their ideas effectively Because I began to focus less on teaching grammar my students and I had more time to explore various writing opportunities As a result of this inquiry my strategies for teaching grammar have shifted from meaningless worksheets that drill the skill to the use of the writing portfolio which helps students see the relevance of grammatical concepts as they write for a variety of audiences and purposes Using Media to Teach Grammar in Context and UNESCO Values Sultan Saleh Albalawi,2014 This thesis recommends ways of teaching both high school and college level learners from ages 16 90 in Saudi Arabia The goal is to help teachers understand how they can teach grammar through the use of various media both in the classroom and for homework It justifies and models how media can help learners understand grammar rules while learning life lessons and clarifying values Reeves 2011 as stated by UNESCO This is a qualitative case study of two English teachers one Egyptian and one South African teaching in the Kingdom of Saudi Arabia KSA and two students one English major studying English in KSA and one biology major studying in the United States Subjects were asked about the use of media to teach grammar and were given a media lesson to respond to in an interview or by email Elements of critical ethnography and constructivist grounded theory are incorporated in a mixed methods approach Sample lessons are included to demonstrate

teaching grammar through media to provide a meaningful whole language approach to engage language learners and increase motivation to learn English Materials are offered to supplement the traditional teacher centered textbook based approaches currently used in KSA The researcher also reflects on his own language learning in KSA middle school through university as an English major and in the United States as a graduate student in English Leaf iv

The SAGE Handbook of Writing Development Roger Beard, Debra Myhill, Jeni Riley, Martin Nystrand, 2009-07-09 Writing development is currently the focus of substantial international debate because it is the aspect of literacy education that has been least responsive to central government and state reforms Teaching approaches in writing have been slower to change than those in teaching reading and pupil attainment in writing has increased at a much more modest rate than pupil attainment in reading This handbook critically examines research and theoretical issues that impact on writing development from the early years through to adulthood It provides those researching or teaching literacy with one of the most academically authoritative and comprehensive works in the field With expert contributors from across the world the book represents a detailed and valuable overview of a complex area of study
