Teaching Matters:

Teaching Matters Most Thomas M. McCann, Alan C. Jones, Gail A. Aronoff, 2012-06-05 A laser beam focus on improving instruction to improve learning. Saying teaching matters most is easy and seems obvious. Making it the top priority for school leaders and staff is not so easy. In fact, it's messy. If we want to change how students write, compute, and think, then teachers must change how they teach. They must transform the old assign and assess model into engaging, compassionate, coherent, and rigorous instruction. The authors show school leaders how to make this happen amidst myriad distractions, initiatives, and interruptions. Unlike other books that stop at evaluating teachers and instruction, this work demonstrates how to grow schools' instructional capacities with a three-step process that involves: Envisioning what good teaching looks like; Measuring the quality of current instruction against this standard; Working relentlessly to move the quality of instruction closer and closer to the ideal. The authors provide helpful guidance on issues such as hiring, induction, professional development, mentoring, and teacher evaluation. Each chapter offers specific action steps toward building the blueprint for improvement. Also included are frameworks for completing instructional audits in schools and probes, instruments, and protocols for measuring and tracking the quality of instruction. Leaders will find excellent guidance for spearheading and sustaining a focused and aligned effort to improve the quality of teaching to impact all learners. **Teaching Matters** Todd

Because Teaching Matters Marleen C. Pugach, 2023-12-12. Revised and updated guide for prospective teachers with increased detail about the realities of teaching in a changing demographic society post-pandemic. Life, societal changes brought about by technology, and the current political moment in education. Real challenges, real choices, and very real consequences. That's what today's classrooms are about. That's why Marleen Pugach's *Because Teaching Matters* Third Edition depicts today's classrooms as they truly are, while highlighting the enormous impact teachers have on students' lives. The book is organized around five professional commitments: learning from multiple sources of knowledge; using the curriculum responsibly; practicing equity-minded teaching; meeting the needs of individual students in the context of the classroom and school community; and contributing actively to the profession. The third edition focuses on the current landscape and challenges of supporting multi-racial, multi-ethnic, multi-lingual, and multi-ability classrooms across socio-economic levels and the relationships among students, families, communities, and educators. The latest academic approaches for teaching students who have disabilities; leveraging modern classroom technology; the role of legislation and funding; and updates on the current context of teaching and teacher preparation. New post-pandemic societal and educational contexts. Classroom and school reflections on practice written by current teachers and teacher leaders in real classrooms and real schools, showing authentic best practices in action. Ideal for Foundations of Education and Introduction to Teaching courses designed to provide preservice teachers with an overview of the profession. *Because Teaching Matters* Third Edition tells the

story of today's complex classrooms. It also drives home that though the decision to teach is a serious one, it is one that can be extremely rewarding.

Teaching Matters Beverly Falk, Megan Blumenreich, 2012. As public schools become increasingly embattled by budget shortfalls, crowded buildings, and ever more rigid curricula, the burden of these restrictions has drastically changed the way children are expected to learn. Nowhere is this more obvious or more devastating than classrooms in high-need urban areas. Drawing upon teachers' firsthand experiences in some of today's most demanding schools, leading education experts Beverly Falk and Megan Blumenreich provide an enlightening account of what our students really need and how teachers are stepping up to provide what state standards and political posturing cannot. Teaching Matters takes us into a variety of classrooms to witness the art of teaching at its most creative and effective, with a focus on early childhood and elementary school. We follow educators as they strive to change systems that fail to address the needs of their students, from efforts to break the silence about homophobia in schools and multipronged strategies to build stronger relationships with immigrant families to the modification of ineffective curriculum to foster the growth of the whole child. By confronting many misconceptions about urban education and school reform, Falk and Blumenreich provide a crucial insider's look at some of the most challenging and relevant questions in education today.

Why Teaching Matters Paul Farber, Dini Metro-Roland, 2020-02-20. Why Teaching Matters is an introductory guide to core elements of teaching, getting to the heart of what teaching is and why it matters. Paul Farber and Dini Metro-Roland introduce the following 8 elements which encompass the many issues, themes, and social complexities of teaching: Conveying Care, Enacting Authority, Cultivating Virtue, Interpreting Subject Matter, Rendering Judgment, Articulating Purpose, Establishing a Sense of Place, Engaging Presence. The focus on the elements of practice frames discussion of teaching as an essential human activity and highlights the kinds of significant issues that teachers face, including technology, social inequality, and the management and evaluation of their work. As a philosophical guide, it introduces and draws upon a range of thinkers, including Nel Noddings, Hannah Arendt, Hans Georg Gadamer, Danielle Allen, and James Baldwin, whose work informs a deeper understanding of teaching. The theoretical discussions are grounded with examples and anecdotes from the classroom, so that theory is always connected with practice, and questions for further inquiry appear at the end of each chapter.
