Teaching As A Subversive Activity A Delta:

Teaching As a Subversive Activity Neil Postman, 1969-06 Teaching As a Subversive Activity Neil

Postman, 1971-07-15 A no holds barred assault on outdated teaching methods with dramatic and practical proposals on how education can be made relevant to today's world Praise for Teaching As a Subversive Activity A healthy dose of Postman and Weingartner is a good thing if they make even a dent in the pious American classroom the book will be worthwhile New York Times Book Review Teaching and knowledge are subversive in that they necessarily substitute awareness for guesswork and knowledge for experience Experience is no use in the world of Apollo 8 It is simply necessary to know However it is also necessary to know the effect of Apollo 8 in creating a new Global Theatre in which student and teacher alike are looking for roles Postman and Weingartner make excellent theatrical producers in the new Global Theatre Marshall McLuhan It will take courage to read this book but those who are asking honest questions what's wrong with the worlds in which we live how do we build communication bridges cross the Generation Gap what do they want from us these people will squirm in the discovery that the answers are really within themselves Saturday Review Neil Postman and Charles Weingartner go beyond the now familiar indictments of American education to propose basic ways of liberating both teachers and students from becoming personnel rather than people the authors have created what may become a primer of the new education Their book is intended for anyone teacher or not who is concerned with sanity and survival in a world of precipitously rapid change and it's worth your reading Playboy This challenging liberating book can unlock not only teachers but anyone for whom language and learning are not dead Nat Hentoff *Critical Legal Education as a Subversive Activity* Helen Gibbon, Ben Golder, Lucas Lixinski, Marina Nehme, Prue Vines, 2015-10-16 In an age when everyone aspires to teach critical thinking skills in the classroom what does it mean to be a subversive law teacher Who or what might a subversive law teacher seek to subvert the authority of the law the university their own authority as teachers perhaps Are law students ripe for subversion agents of or impediments to subversion Do they learn to ask critical questions Responding to the provocation in the classic book Teaching as a Subversive Activity by Postman and Weingartner the idea that teaching could or even should be subversive still holds true today and its premise is particularly relevant in the context of legal education We therefore draw on this classic book to discuss in the present volume the consideration of research into legal education as lifetime learning as creating meaning as transformative and as developing world changing thinking within the legal context The volume offers research into classroom experiences and theoretical and historical interrogations of what it means to teach law subversively Primarily aimed at legal educators and doctoral students in law planning careers as academics its insights speak directly to tensions in higher education more broadly **The Routledge Companion to Creativities in Music Education** Clint Randles, Pamela Burnard, 2022-12-30 Viewing the plurality of creativity in music as being of paramount importance to the field of music education The Routledge Companion to Creativities in Music Education provides a wide ranging survey of practice and

research perspectives Bringing together philosophical and applied foundations this volume draws together an array of international contributors including leading and emerging scholars to illuminate the multiple forms creativity can take in the music classroom and how new insights from research can inform pedagogical approaches In over 50 chapters it addresses theory practice research change initiatives community and broadening perspectives A vital resource for music education researchers practitioners and students this volume helps advance the discourse on creativities in music education

Teaching as a Human Activity J. Amos Hatch, 2021-09-22 This book inspires new teachers focusing on making a positive impact building connections effective classroom management engaging instructional approaches and avoiding burnout It celebrates the passion and intelligence of teachers highlighting ways to create meaningful learning filled connections with students

Disrupting Secondary STEM Education Margery Gardner, 2024-12-19 This volume brings into focus the pivotal educational years during adolescence when many learners are exposed to implicit and explicit messages that STEM is not a viable educational pathway for them Challenging this notion Disrupting Secondary STEM Education brings together a collective of critical educators who share what disruptive STEM teaching looks and feels like from an insider perspective as well as the ways they purposefully create curriculum to subvert existing structures that can confine learning Through disruptive STEM teaching a joy for learning is kindled as well as a sense of empowered criticality in students that can support their development as global citizens facing complex futures The collection shares stories across a spectrum of educators from those beginning their teaching journey to those who ve stood up against narrow curriculum and standardized testing for years in the capacity of both P 12 teachers and teacher educators The voices of these educators illustrate how the work of disruptive STEM teaching can be actualized within cohorts of future teachers achieved through early engagement with critical theories and generative field experiences that support and affirm a wide array of identities This book provides multiple theoretical and practical access points for the reader to understand the work of disruptive STEM teaching and offers a way forward for those interested in developing more critical curriculum in their own classrooms As such it will be important reading for postgraduate students and researchers in Social Justice Education and STEM Education as well as for in service educators

Women and Leadership in Distance Education in Canada Cindy Ives, Pamela Walsh , Rebecca E. Heiser, 2025-11-18 The impact of distance education on higher learning is undeniable and women have played a significant role in shaping the evolution of this field However their leadership contributions have remained largely unacknowledged and undervalued Women and Leadership in Distance Education in Canada addresses this critical gap by amplifying the voices of Canadian women who have fostered inclusive relational and complexity based leadership approaches that prioritize student needs accessibility and social justice With contributions from instructional designers faculty members and senior administrators this timely and candid collection offers practical strategies for encouraging resilience and mentorship as well as valuable insights on program design collaborative organizational development and lived experiences of
