Authoring Autism M. Remi Yergeau, 2018-01-05 In *Authoring Autism* M Remi Yergeau defines neurodivergence as an identity neuroqueerness rather than an impairment Using a queer theory framework Yergeau notes the stereotypes that deny autistic people their humanity and the chance to define themselves while also challenging cognitive studies scholarship and its reification of the neurological passivity of autistics They also critique early intensive behavioral interventions which have much in common with gay conversion therapy and questions the ableist privileging of intentionality and diplomacy in rhetorical traditions Using storying as their method they present an alternative view of autistic rhetoricity by foregrounding the cunning rhetorical abilities of autistics and by framing autism as a narrative condition wherein autistics are the best equipped people to define their experience Contending that autism represents a queer way of being that simultaneously embraces and rejects the rhetorical Yergeau shows how autistic people queer the lines of rhetoric humanity and agency In so doing they demonstrate how an autistic rhetoric requires the reconceptualization of rhetoric s very essence **Effective**

Practices for Children with Autism James K. Luiselli, 2008-03-13 Children who have autism require comprehensive educational and treatment services There are a myriad of approaches currently recommended to practitioners and parents but little is known about their efficacy Which are the most effective in teaching skills overcoming behavior challenges and improving quality of life Methods must be based in research settings but be easily extended to real world settings where children with autism live go to school socialize and recreate Identifying and validating effective practices is a complex and multi faceted process but an essential one for responsible research and practice This book brings together multiple and contemporary perspectives on intervention effectiveness for autism education and behavior support With contributors from a

variety of disciplines and orientations Effective Practices for Children with Autism presents a critical appraisal of current practice standards emphasizing empirically supported procedures and research to practice applications By bringing together a diverse group of authors the editors have ensured that the vast field of information on interventions for children with autism is thoroughly examined and that no topic has gone untouched Written for practitioners research scientists and clinicians the book is an essential framework for evaluating educational and treatment procedures selecting those that are most effective and evaluating outcomes

Handbook of Early Intervention for Autism Spectrum Disorders Jonathan Tarbox, Dennis R. Dixon, Peter Sturmey, Johnny L. Matson, 2014-04-04 Current rates of autism diagnoses have been cause for concern and research as well as rumor and misinformation Important questions surround the condition how early can an accurate diagnosis be made At what age should intervention start How can parents recognize warning signs And what causes autism in the first place There are no easy answers but the Handbook of Early Intervention for Autism Spectrum Disorders gives researchers practitioners and academics the science and guidance to better understand and intervene Background chapters survey the history of professional understanding of the disorders and the ongoing debate over autism as a single entity or a continuum Chapters on best methods in screening assessment and diagnosis reflect the transition between the DSM V and older diagnostic criteria And at the heart of the book the intervention section ranges from evidence based strategies for developing core skills to ethical concerns cultural considerations and controversial treatments Included in the Handbook's broad based coverage Designing curriculum programs for children with autism spectrum disorders ASD Mainstream education for children with ASD Teaching independent living skills to children with ASD Social skills and play Behavioral and mental health disorders in children with ASD Training and supporting caregivers in evidence based practices Teaching cognitive skills to children with ASD The Handbook of Early Intervention for Autism Spectrum Disorders is a comprehensive reference for researchers professors and graduate students as well as clinicians and other scientist practitioners in clinical child and school psychology child and adolescent psychiatry social work rehabilitation special education and pediatric medicine
