Goh, 2019-12-18 Teachers Perceptions Experience and Learning offers insightful views on the understanding of the role of teachers and the impact of their thinking and practice. The articles presented in this book illustrate the influence of teachers on student learning, school culture, and their own professional identity and growth, as well as highlighting challenges and constraints in pre and in-service teacher education programmes that can impact teachers' own learning. The first article examined teacher experiences in the use of design thinking by Retna Next Hong's and Young's article looks into contradictory effects of the new national curriculum in South Korea. Lu Wang, Ma Clarke, and Collins explored Chinese teachers' commitment to being a cooperating teacher for rural practicum placements.
