Costley,2012 Student diversity is a major topic in education today Diversity will not be going away any time soon Even over thirty years ago educators were beginning to discuss the subject of diversity and multiculturalism In fact during the 1970s and 1980s the word diversity was seldom used at all The term multiculturalism was at the forefront of the scene Although the world was diverse during those earlier decades many educators did not seem to recognize the importance of multiculturalism and diversity In those decades and later with the enactment of No Child Left Behind classrooms have become much more diverse Due to diversity teachers have had to change their methods of teaching considerably to meet the needs of all learners During the last decade of an increasing population of Hispanics and other immigrants from various parts of the world moving to the United States teachers are now realizing how diverse their classrooms are now becoming Old lesson plans that once worked well for students learning are now discarded with new lesson plans accommodating the needs of the diverse student population In the 50s and 60s the population was not as diverse Teaching was most likely less challenging then it is today This article covers several areas of diversity including race ethnicity culture children s strengths and weakness individual student s preferences and likes and dislikes poverty settings in today s classroom and the need for accessing prior knowledge before teaching lessons Diversity today should not be seen as a problem to be dealt with it should be a welcomed challenge Only through challenges do teachers become better teachers Common Bonds Deborah A. Common Bonds Deborah A. Byrnes, Gary Kiger, 1992-01-01. This collection of essays seeks to prepare educational theorists and practitioners to accept diversity as a fundamental element in all educational decision-making. The collection defines diversity broadly to include differences along racial, ethnic, cultural, religious, ability, socioeconomic, language, and gender lines. Themes running throughout the collection include the reality of cultural diversity in all segments of American culture and the relationship between theory, research, and practice. Another important theme is the teacher's ability to create an environment in which differences are recognized and accepted while simultaneously providing students with a common set of norms and values that bind students together. A foreword by Geneva Gay and a preliminary overview by Gary Kiger and Deborah A. Byrnes provide an introduction to the book and to diversity as an educational issue. The book's seven chapters are: 1. Addressing Race, Ethnicity, and Culture in the Classroom by Deborah A. Byrnes; 2. Living with Our Deepest Differences: Religious Diversity in the Classroom by Charles H. Haynes; 3. Ability Differences in the Classroom: Teaching and Learning in Inclusive Classrooms by Mara Sapon Shevin; 4. Class Differences: Economic Inequality in the Classroom by Ellen Davidson and Nancy Schniedewind; 5. Language Diversity in the Classroom by Deborah A. Byrnes and Deana Cortez; 6.
