Lance, Spear, Sword, and Messer Christian Henry Tobler, 2022-03-31 The 14th century a paradoxical time of world shattering plague the Hundred Years War the Peasants Revolt but also literary and artistic innovation formed the basis of the Renaissance In the later years of this turbulent time a shadowy figure named Johannes Liechtenauer systematized lessons for swordsmanship wrestling armoured and mounted combat Recorded in cryptic rhyming verses it fell to masters of the 15th and 16th century to record clarify and expand the grandmaster's instructions in an extensive body of fencing manuals As the world of the knight receded into history these texts many extensively and beautifully illustrated were forgotten by all but German language antiquarians and fencing historians until the last decade of the 20th century when they were rediscovered by a new audience of martial artists and historians In Lance Spear Sword and Messer Christian Tobler makes a deep dive into these fighting traditions creating a rich anthology that has extensive instructional material on topics as diverse as the two handed sword spear poleaxe wrestling and the use of long shields combined with thought provoking analysis and historical commentary that will occupy the mind and challenge the preconceptions of long time students of medieval German martial arts Finally the martial career in arms and in the literature of arms of the famed Emperor Maximilian I often called the Last Knight who was himself a devoted student of the tradition serves as a capstone of this collection much as his literary output including a planned but unwritten fight book did in his own lifetime at the waning of the Middle Ages and start of the Northern Renaissance

Smith,2021-09-30 The teaching of Historical European Martial Arts has widespread appeal with numerous clubs in many countries However comparatively few people who run their own club have qualifications that would make them an instructor in traditional martial arts organizations Even those with such qualifications lack in depth cohesive resources for teaching a given style often because they can only work from incomplete sources Thus the need for a book which is grounded in exhaustive research into historical teaching methods and in particular focusing on the specific style of Sigmund Ringeck who was himself a teacher of fighting arts in the late 14th century or the early or mid 15th century In *The Art of Longsword Fighting* Benjamin J Smith therefore offers the broader information necessary for teachers of historical swordsmanship to deliver courses based on original authentic techniques This includes the various cutting methods the role of competition in learning these arts the mechanics of the interpretive process and insights into how to use a wide range of activities to enhance students experience All of this is achieved through a panoply of photographs showing each move along with explanatory diagrams as well as detailing how and when to introduce each next step in a manner that is faithful to Ringeck s style There is no current literature available which demonstrates how each move should be undertaken and most importantly why each step should be taken in the sequences described There is no doubt that a book of this nature has been long awaited and will be welcomed by instructors and students alike as well as those general readers interested in fencing and the longsword of the Renaissance period **The Medieval Dagger** Guy Windsor,2021-05-05 In *Mastering the Art of Arms Volume One The Medieval Dagger* Guy Windsor presents a complete guide to the principles and practice of Italian dagger combat as set down in *Il Fior di Battaglia* a manuscript written in 1410 Readers are guided step by step through the process of mastering this six hundred year old art from choosing a dagger to striking with it from guard positions to steps and turns from disarms to locks and takedowns from safe falling practice to formal drills and finally pressure testing their skills with sparring Both a primer on the art and a methodology for on going training this book will give the complete novice a solid starting point while providing useful drills and ideas for advanced martial artists Those who study other traditional knife arts and modern military combatives will find many familiar techniques present in this ancient system Dr Guy Windsor is a world renowned instructor and a pioneering researcher of medieval and renaissance martial arts He has been teaching the Art of Arms full time since founding The School of European Swordsmanship in Helsinki Finland in 2001 His day job is finding and analysing historical swordsmanship treatises figuring out the systems they represent creating a
