Let's Teach Our Children Values, Right Now Guadalupe Treviño,2016-09-13 Values Who really needs them This book brings together people who share the same interest helping children discover and express their inner potential and be happy with themselves It is hard to think of a greater reward in life Sometimes we doubt whether it s worth teaching positive attitudes to children when we live in such a negative world Sometimes we wonder if respecting values is something outdated as it seems that nobody needs them But you and I know with certainty from the bottom of our hearts that we already have an answer to these questions we know that you will

you reap what you sow We know that universal values don't change they don't go out of fashion We believe that just as we devote a lot of time teaching our children to read write and do math it is also imperative that they are also taught to live by the values of truth honesty love goodness spiritual beauty among others We live or rather suffer a crisis of values lack of credibility lack of leadership and it is only natural that we have this void in society being a leader requires being congruent with nothing less than universal values Our kids are exposed to a constant bombardment of information cynicism violence materialism corruption sex Advertising shouts at them that what really matters is what you own not who you are they teach them a life without efforts the quick fixes and without obligation where what's attractive is violence It is imperative that we act right now We must be the type of parents that can influence and can promote values to our children We the parents are the undisputed teachers who need to instill values in our children If you do not teach them someone else will do it for you and maybe without the interest understanding and parental love that only you can bring to this discussion We know that our children are at such a young age only once they grow up quickly therefore we must use this precious time to influence those lives that we have been entrusted with This is not a book that will help you discover your mission in life it already assumes that you consider your mission or vocation to teach and promote values to your children and that you consider this your greatest legacy You and I do not know what world our children will be living in when they are older but what we can predict is what kind of children we are letting into the world

What Are They Teaching Our Children? Mel Gabler, Norma Gabler, James C. Hefley, 1985

Teach Them to Work Mary Beeke, 2021-04-24 Mary will help you find new energy your household new harmony and your children a good work ethic through parenting and practical principles that give you the help you need

Teach Them Diligently Leslie Nunnery, 2018-03-01 It's easy to say we trust Christ for everything but are we living that truth We've been given clear instruction in a powerful promise for parents God tells us in Deuteronomy to teach our children diligently This passage and many others give us great insight as to how to do that and enjoy the promised blessing that always accompanies the mandates we are given Learn the practical view of discipleship parenting what God expects from parents and how to put these truths into action See how parenting with the vision of teaching them diligently will intentionally bear fruit and affect change in your own life as well Move beyond giving lip service to what you believe and make the conscious choice to rely on the wisdom of God's holy instruction for your life and parenting So why are we as Christian parents still uncertain Why do we live in fear Why are we losing our children in record numbers What can we do about it

How Public Schools Destroy Your Children's Lives and Careers Sandro Sehic, 2010-06 Educating your children in the public schools does not take one minute or perhaps one day Education is a life long process and whether we like it or not the fact is it never stops Your children will spend the most important part of their lives at the public schools and whatever they learn at those schools will impact their lives as long as they live What really happens to your children at public schools each day Do you think that your children are learning useful information in today's schools If you think that your

children will leave today's public schools properly prepared for real life the answer is no you are WRONG Public schools have failed Many teachers are not properly educated with the appropriate teaching certification School administrators constantly sell lies about the success of their students when in reality they are failing miserably today Courses and exams are designed to be very simple so that they no longer test the knowledge of our children properly The greatest portion of school budgets is spent on the salary of local school administrators Almost everything your children learn in today's public schools is useless Teaching positions are no longer designed for the smartest and most qualified teachers they have become political positions that anyone can hold as long as they get approved by the school board It's not too late to do something to turn this around How Public Schools Destroy Your Children's Lives and Careers offers thoughts and solutions on this hot button topic *The Educator-journal*, 1917 **How to Educate Your Children in the 21st Century** Clynie Huggins, 2019-10-15 Education can be defined as the act or process of acquiring knowledge to develop understanding reasoning and judging to be used in any area Education can be perceived as a life line to quality life This means that education should be effective efficient adequate and powerful Education can be viewed as the key to success If success depends upon education then we as parents want the highest quality of education for our children We as educators and parents should lead and guide our children effectively in the twenty first century in order to meet the changes and challenges in our schools communities and this society *Mathematics Teacher, Learning and Teaching PK-12*, 1913 *Teaching Our Children to Think* John Langrehr, 2000-10 Provides techniques for teaching children mental organization and analytical creative and critical thinking through exercises and includes pretests and an appendix with possible answers *Child Welfare*, 1928 *Bulletin* Catholic Educational Association, 1912 Nov issue includes Proceedings of the annual meeting **Child Study**, 1930 *The Westminster Review*, 1909 *Child-garden of Story, Song and Play*, 1898 **The Treasury of David** Spurgeon, 1873
