historical knowledge for the future **The Science and Art of Teaching: Or, The Principles and Practice of Education**
George Victor Le Vaux,1875 **The Principles and Practice of Teaching and Class Management (Classic Reprint)**
Joseph Landon,2016-06-27 Excerpt from The Principles and Practice of Teaching and Class Management I have tried
throughout to make the subject suggestive and while laying stress upon principles and essentials to leave room for that
originality of treatment by the teacher himself and for that elasticity and expansiveness in practice which characterise all
good method Mere unintelligent imitation of the detailed plans of others is not what is required in school work and should
not be the aim of any true teacher One never knows how much one owes to one s friends and teachers be they men or books I
am deeply indebted to both but to acknowledge every point in detail would have been as impossible to me as it would have
been wearisome to the reader It is with a lively sense of gratitude that I offer my thanks to those kind friends who have
aided me in the revision of the proof sheets and by their wise advice have enabled me to remove many defects One to whom I
owe much for useful suggestions and friendly criticism has passed away before the work was completed About the Publisher
