Teaching Secondary School Mathematics Merrilyn Goos, Colleen Vale, Gloria Stillman, Katie Makar, Sandra Herbert, Vince Geiger, 2020-07-16

Since its first publication, *Teaching Secondary School Mathematics* has established itself as one of the most respected and popular texts for both pre-service and in-service teachers. This new edition has been fully revised and updated to reflect the major changes brought about by the introduction of the Australian Curriculum Mathematics as well as discussing significant research findings, the evolution of digital teaching and learning technologies, and the implications of changes in education policies and practices. The mathematical proficiencies that now underpin the Australian curriculum—understanding, fluency, problem solving, and reasoning—are covered in depth in Part 1, and a new section is devoted to the concept of numeracy. The chapter on digital tools and resources has been significantly expanded to reflect the growing use of these technologies in the classroom, while the importance of assessment is recognised with new material on assessment for learning and as learning, along with a consideration of policy development in this area. Important research findings on common student misconceptions and new and effective approaches for teaching key mathematical skills are covered in detail. As per the first edition, readers will find a practical guide to pedagogical approaches and the planning and enactment of lessons, together with enhanced

chapters on teaching effectively for diversity managing issues of inequality and developing effective relationships with parents and the community This book is the essential pedagogical tool for every emerging teacher of secondary school mathematics The text offers an excellent resource for all of those involved in the preparation of secondary mathematics teachers with links to research literature exemplars of classroom practices and instructional activities that encourage readers to actively examine and critique practices within their own educational settings Professor Glenda Anthony Institute of Education Massey University A rich and engaging textbook that covers all of the important aspects of learning to become an effective secondary mathematics teacher The second edition of this text is further enhanced with updated references to the Australian Curriculum NAPLAN STEM current Indigenous social justice and gender inequity issues and the place of Australian mathematics curricula on the world stage Dr Christine Ormond Senior Lecturer Edith Cowan University

Teaching Secondary School Mathematics Merrilyn Goos,2021 Excellent mathematics teachers make a major difference to the learning outcomes of the students they teach What are the professional skills and knowledge that really matter Teaching Secondary School Mathematics is a research based introduction to the professional knowledge attributes and practices needed to teach mathematics well at secondary level The authors explain the challenges that secondary mathematics teachers face today and how they can build on the experiences students bring from primary school and from outside the classroom to ensure students develop concepts and skills in mathematical thinking and a positive attitude to mathematics They outline the secondary mathematical curriculum and methods of assessment and examine the pedagogical strategies teachers can use to engage student interest in mathematical concepts They emphasise the importance of working with mathematical reasoning and problem solving real world applications and mathematical communication skills The core mathematical topics covered at secondary level are reviewed and the authors also explore the issues teachers need to consider with students of diverse backgrounds I highly recommend this book to practising mathematics teachers as well as pre service teachers The combination of research and practical teaching ideas ensures current and worthwhile advice for teaching secondary or middle school students Dr Judy Anderson The University of Sydney An excellent book very readable interspersed with useful tasks which are grounded in attending to effective classroom practices A much overdue resource for initial teacher preparation courses Associate Professor Glenda Anthony Massey University *Learning to Teach Secondary School Mathematics* Otto C.
