Teaching the Basics--really! Ouida H. Clapp,1977      **Center Will Hold** Michael Pemberton,2003-12-01 In The Center Will Hold Pemberton and Kinhead have compiled a major volume of essays on the signal issues of scholarship that have established the writing center field and that the field must successfully address in the coming decade The new century opens with new institutional demographic and financial challenges and writing centers in order to hold and extend their contribution to research teaching and service must continuously engage those challenges Appropriately the editors offer the work of Muriel Harris as a key pivot point in the emergence of writing centers as sites of pedagogy and research The volume develops themes that Harris first brought to the field and contributors here offer explicit recognition of the role that Harris has played in the development of writing center theory and practice But they also use her work as a springboard from which to provide reflective descriptive and predictive looks at the field      A Primer for Writing Teachers David Foster,1983 Essential reading for teachers interested in the methods and problems of composition but unfamiliar with its current theoretical backgrounds      **The English Teacher's Activities Handbook** Floyd L. Noguchi,1991 Intended for practitioners this study has three principal aims 1 to reduce the breadth of formal grammar instruction by first locating those areas where grammar and writing overlap and then identifying those kinds of writing problems most amenable to treatment with a grammar based approach 2 to decrease the classroom hours spent on formal grammar instruction by showing how to capitalize on the already acquired yet unconscious knowledge that all native writers have of their language and 3 to make this streamlined writer s grammar more productive by showing how to integrate it with style content and organization The book is directed toward teachers of writing who to varying degrees struggle with the unwieldy partnership of grammar and writing Chapters 1 and 2 serve to examine some probable reasons why grammar instruction has failed to improve writing quality to delimit radically the scope of grammar instruction and to identify specific areas where a knowledge of a minimal set of grammatical categories might be of help Chapters 3 and 4 focus on the use of native speaker abilities in place of formal grammar instruction to treat certain kinds of sentence level writing problems Chapter 5 suggests a promising way to integrate the diminished focus on grammar with style content and organization Finally chapter 6 summarizes several pragmatic paradoxes that currently beset grammar instruction in the schools MG      The Teaching of High School English Julius Nicholas Hook,William Howard Evans,1982      **Language Arts** ,1977      **Today's Education** ,1976      **English Education** ,1975      **American Book Publishing Record Cumulative, 1950-1977** R.R.
