Freemasonry's Secrets John White,2015-06-10

The most important aspect of Freemasonry is the open secret or plainly recognized truth that there will never be a better world until there are better people in it Although Freemasonry has a huge fund of esoteric knowledge about higher human development it can be boiled down to a single statement Masonry makes good men better That statement should always be amplified by at least this much Not better than others but better than themselves through self improvement More broadly our fraternity makes good men better through self directed growth in body mind and spirit influenced and inspired by Masonic teachings and guidelines Freemasonry has to do with freeing people from ego centered consciousness It does so by emphasizing character development value realization abiding faith in God and the highest sort of patriotism In Freemasonry we ourselves are the rough stone which is to be hewn and polished into an ashlar fit for building the Temple of God So the possibility of making good men better is one which extends from ordinary everyday matters to the farthest range of human nature traditionally called God realization spiritual freedom liberation unity consciousness cosmic consciousness nondual consciousness and most commonly enlightenment
