**The New Chess Computer Book** T. D. Harding,2014-05-17 The New Chess Computer Book is a revised edition of The Chess Computer Book that contains more than 50 percent new material about chess playing microcomputers Since the first edition of the book was written there have been large numbers of machines launched some of which the author has been able to test over a long period Inevitably there are new chess playing microcomputers machines and updated modules for older ones coming out all the time with launch dates for machines in different countries often being different due to commercial considerations However an attempt has been made to discuss in detail every top of the range machine available on the British market The book begins with a brief survey of the origins of chess computing and the development of chess playing machines This is followed by separate chapters on topics such as the types of machines that play chess modular chess computers computer hardware and software and developments in chess microcomputers in the latter half of 1984

**Writing Computer and Information History** William Aspray,2024-05-14 This is not a book about the history of computing or the history of information Instead it is a meta historical book about the research and writing of these types of history The formal presentation of historical research in the form of a publication often hides the process by which the topic was selected boundaries were drawn evidence was selected analytic approach was chosen and applied results were presented how this work fits into a larger body of scholarship the implicit goals and biases of the author and many other similar issues This process of learning about the various ways to carry out computer history or information history can be enriched by this collection of reflective essays by experienced scholars discussing the craft that they practice This is a book that concerns both computer history and information history The first scholarship in computer history by professionally trained scholars began to appear in the 1970s so we are approaching a half century of research and publication in this area The field has generated numerous pieces of exemplary scholarship from various perspectives such as intellectual history of individual technologies business histories of firms economic histories of market sectors externalist

histories of funding and professionalization and so on However the field continues to evolve especially as computing and communication technologies have drawn together in the form of the Internet and social media and with them a new set of scholars is participating drawn not only from the history of science and technology but also from the communication and media studies fields Powerful theories approaches and frameworks are being increasingly drawn more widely from both the humanities and the social sciences to inform the practice of computer history The scholars in this volume look at what s happened what s happening now and where historical scholarship in these disciplines is headed
