The Story of the Pony Express Glenn D. Bradley,2017-05-19 The Story of the Pony Express offers an in depth account behind the need for a mail route to connect the eastern U S with the rapidly populating west coast following the gold rush of California the springing up of lumber camps and all incidental needs arising from the settling of the western frontier Here we learn of the inception of the Pony Express its formation successes failures facts statistics combined with many anecdotes and names of the people who were an integral part of this incredible entity which lasted but less than two years yet was instrumental in the successful settlement of two thirds of the land mass comprising the expanding country [The Story of the Pony Express](#) Glenn D. Bradley,2016-07-12 The Pony Express was the first rapid transit and the first fast mail line across the continent from the Missouri River to the Pacific Coast It was a system by means of which messages were carried swiftly on horseback across the plains and deserts and over the mountains of the far West It brought the Atlantic coast and the Pacific slope ten days nearer to each other It had a brief existence of only sixteen months and was supplanted by the transcontinental telegraph Yet it was of the greatest importance in binding the East and West together at a time when overland travel was slow and cumbersome and when a great national crisis made the rapid communication of news between these sections an imperative necessity **The Story of the Pony Express Illustrated** Glenn Danford Bradley,2021-02-25

The Pony Express was a mail service delivering messages newspapers and mail using relays of horse mounted riders that operated from April 3 1860 to October 26 1861 between Missouri and California in the United States of America Operated by Central Overland California and Pikes Peak Express Company the Pony Express was of great financial importance to the U S During its 18 months of operation it reduced the time for messages to travel between the Atlantic and Pacific coasts to about 10 days 1 It became the West s most direct means of east west communication before the transcontinental telegraph was

established October 24 1861 and was vital for tying the new U S state of California with the rest of the United States Despite a heavy subsidy the Pony Express was not a financial success and went bankrupt in 18 months when faster telegraph service was established Nevertheless it demonstrated that a unified transcontinental system of communications could be established and operated year round When replaced by the telegraph the Pony Express quickly became romanticized and became part of the lore of the American West Its reliance on the ability and endurance of individual young hardy riders and fast horses was seen as evidence of rugged American individualism of the frontier times
