Vitus Bering: the Discoverer of Bering Strait Peter Lauridsen, 1969 VITUS BERING PETER. LAURIDSEN, 2018 History's Great Untold Stories Joseph Cummins, 2006 Looks at thirty key events that had a profound influence on the course of human history from the assassination of William the Silent whose death may have triggered the 1588 launch of the Spanish Armada to twelve anti-slavery activists who bucked the establishment to outlaw slavery in Britain.

Vitus Bering Peter Lauridsen, 2015-05-01 long enough to see his gigantic plans approach realization. Bering was buried on an island in the Pacific amid the scenes of his labors under that sand barrow which had been his death bed. For many generations only a plain wooden cross marked his resting place and as for his fame it has been as humble and modest as his head board. His labors belonged to a strange people who had but little sympathy for the man. His own countrymen among whom he might have found this sympathetic interest knew his work but very imperfectly. Not until after the lapse of a century did he find a careful biographer and even within comparatively recent years the great scientist Von Baer has found it necessary to defend him against misunderstandings and petty attacks.
