The Descent of Political Theory John G. Gunnell, 1993-12 This provocative work reveals the origins and development of political theory as it is presently understood and misunderstood Tracing the evolution of the field from

the nineteenth century to the present John G Gunnell shows how current controversies like those over liberalism or the relationship of theory to practice are actually the unresolved legacy of a forgotten past By uncovering this past Gunnell exposes the forces that animate and structure political theory today Gunnell reconstructs the evolution of the field by locating it within the broader development of political science and American social science in general During the behavioral revolution that swept political science in the 1950s the relationship between political theory and political science changed dramatically relegating theory to the margins of an increasingly empirical discipline Gunnell demonstrates that the estrangement of political theory is rooted in a much older quarrel the authority of knowledge versus political theory is rooted in a much older quarrel the authority of knowledge versus political authority academic versus public discourse By disclosing the origin of this dispute he opens the way for a clearer understanding of the basis and purpose of political theory As critical as it is revelatory this thoughtful book should be read by any one interested in the history of political theory or science or in the relationship of social science to political practice in the United States Deforming American Political Thought Michael J. Shapiro,2006-10-20 By affirming the relativity of the American historical imagination political theorist Michael J Shapiro offers a powerful polemic against ethnocentric interpretations of American culture and politics Deforming American Political Thought analyzes issues that range from the nature of Thomas Jefferson s vision of an egalitarian nation to the persistence of racial inequality Shapiro demonstrates how history architecture film music literature and art are valuable resources that help us comprehend several viewpoints of American political thought from the founding to the present Exploring such diverse works as slave narratives contemporary films genre fiction and blues and jazz music Shapiro reveals that there have always been dissenting voices casting doubt on the moral purpose and exceptionalism of the American mind This book will reinvigorate discussions about the essence of American political thought **Critique on the Heights of Despair** Robyn Lee Marasco,2006 **A History of Political Theories** Charles Edward Merriam,Harry Elmer Barnes,1924 Judicial Interpretation of Political Theory William Bennett Bizzell,1914 Between Philosophy and Politics John G. Gunnell,1986 **A History of Political Theories, Recent Times: Essays on Contemporary Developments in Political Theory** Charles Edward Merriam,Harry Elmer Barnes,1924 Contributed by the students of the late William Archibald Dunning **Canadian Journal of Political and Social Theory** ,1988 **Sheldon Wolin and Democracy** Lucy Cane,2020-05-12 Lucy Cane presents the first full length study of Sheldon Wolin 1922 2015 an influential theorist of democracy and prescient critic of inverted totalitarianism in the United States She traces the development of Wolin s thinking over sixty years offering an overarching interpretation of his central preoccupations and shifts in perspective Framed around themes of loss and mourning this is not only an intellectual biography but also a critical engagement of Wolin s work with democratic theory more broadly and an assessment of its value for addressing contemporary crises of democracy Cane brings Wolin into conversation with other contemporary theorists from Chantal Mouffe to Edward Said as well as with his direct intellectual

influences She argues that his mournful tendencies continue to offer unique insight into the potential loss of local democratic cultures in an era of neoliberal precarity At the same time she questions whether his politics of mourning can adequately grasp the dynamics of democratic coalition building or the value of new political movements and ideas Sheldon Wolin and Democracy remedies a lack of interpretive studies of this key thinker connects divergent strands of contemporary theory and addresses urgent democratic dilemmas It is a must read for all political theorists and others in the academy and beyond who seek to conceptualize the fate of democracy amidst the rise of right wing populist movements in the twenty first century

Vocations for Social Change ,1972 *Annals of the American Academy of Political and Social Science* ,1915 **Class Ideology and Ancient Political Theory** Ellen Meiksins Wood,Neal Wood,1978 **The Present Position and Prospects of Political Economy** John Kells Ingram,1878 **Vocation and Learning** Hugo Münsterberg,1912 Cyclopaedia of political science John Joseph Lalor,1884 Science as Metaphor Richard Olson,1971 *American Book Publishing Record* ,2000-07
