The Crimes of the Economy Vincenzo Ruggiero,2013-08-15 Economists have often paid visits to the field of criminology examining the rational logic of offending When economists examine criminal activity they imply that offenders should be treated like any other social actor making rational choices In The Crimes of the Economy Vincenzo Ruggiero turns the tables by examining a variety of economic schools of thought from a criminological perspective Each one of these schools he argues justifies or even encourages harm produced by economic initiative He investigates among others John Locke s notion of private property Mercantilism the Physiocrats and Malthus and the arguments of Adam Smith Marshall Keynes and neoliberalism In each of these the author identifies the potential justification of different forms of crimes of the economy and victimisation This book re examines the history of economic thought assessing it as the history of a discipline which while attempting to gain scientific status in reality seeks to make the social harm caused by economics acceptable The book will be interesting and relevant to students and scholars of social theory criminology economics philosophy and politics

The Palgrave Handbook of Religion and State Volume I Shannon Holzer,2023-10-11 The Palgrave Handbook of Religion and State Volume I Theoretical Perspective deals with the relationship between Religion and its long history that has played out throughout time and across the globe Countries in Africa the Middle East and Europe approach the subject of religion and the state in various ways While the word religion to westerners usually brings Christianity to mind in Japan it is Shintoism and Buddhism Volume II offers chapters on the relationship of both Shintoism and Buddhism to the Japanese state It is very easy to see how the deeply traditional Japanese citizens may come into conflict with the strictly secular Japanese state It also contains chapters about mosque and state as well as synagogue and state

day Why do they think this Why do some people believe them How do their exhortations work to persuade an audience and to move that audience to actions and commitments These are the motivating questions of Contemporary Apocalyptic Rhetoric which describes apocalyptic as a rhetorical genre of discourse Barry Brummett first recasts insights drawn from past scholarly and theological studies to demonstrate their relevance to contemporary apocalyptic then examines a variety of real apocalyptic to illustrate the ways in which these rhetorical discourses actually work The discussion focuses on those strategies arguments and stylistic features that are peculiar to apocalyptic and that support its social and political claims Following an introductory first chapter Chapter Two describes how apocalyptic rhetoric links a psychological context to an esoteric grand order underlying all of time and the cosmos Chapter Three compares premillennial and postmillennial apocalyptic on three dimensions to show the different approaches they take to reach their audiences Chapter Four describes specific rhetorical techniques designed to maintain a mystic persona and urge social and political commitments on audiences The final two chapters apply the author s theories to secular and religious apocalyptic both premillennial Hal Lindsey and Ravi Batra and postmillennial Francis Fukuyama Contemporary Apocalyptic Rhetoric will appeal to readers across many disciplines including communications religion sociology and psychology **Saturday Review of Literature** ,1924 **The Saturday Evening Post** ,1929 SCC Library has 1974 89 plus scattered issues Los Angeles Saturday Night ,1927
