The Southern Diaspora James N. Gregory, 2006-05-18 Between 1900 and the 1970s twenty million southerners migrated north and west Weaving together for the first time the histories of these black and white migrants James Gregory traces their paths and experiences in a comprehensive new study that demonstrates how this regional diaspora reshaped America by southernizing communities and transforming important cultural and political institutions Challenging the image of the migrants as helpless and poor Gregory shows how both black and white southerners used their new surroundings to become agents of change Combining personal stories with cultural political and demographic analysis he argues that the migrants helped create both the modern civil rights movement and modern conservatism They spurred changes in American religion notably modern evangelical Protestantism and in popular culture including the development of blues jazz and country music In a sweeping account that pioneers new understandings of the impact of mass migrations Gregory recasts the history of twentieth century America He demonstrates that the southern diaspora was crucial to transformations in the relationship between American regions in the politics of race and class and in the roles of religion

the media and culture White Rhetorics Scott Michael Schönfeldt-Aultman,2004 **Un-Australian Fictions** Eleni Pavlides,2014-08-11 Un Australian Fictions sets out to analyse a subset of Australian literary fictions published between 1988 and 2008 from the bicentenary of British settlement to the global financial crisis and into a new millennium During a new transnational era Australians faced sober and unsettling times Already accorded the status of national obsession issues of national identity were vigorously contested Concepts such as the nation multiculturalism and globalisation became topics for heated discussion in the public sphere Australia s literary communities were not immune or isolated from these ongoing discussions The un Australian fictions which this book studies represent the challenges which these texts in their own unique way bring to the Australian national ethos and the national mythology which is predicated on traditions such as masculism a bush ethos the pre eminence of white colonial settlement connectedness to an imaginative European geography as well as an unbreakable tie to Britain As un Australian fictions these texts reflect the destabilisation of what were once certain spatial and psychic borders and orders of Australianness They affect as well as reflect the wider conversation that continues today about what being Australian means in a new millennium **Annual Review of Comparative and International Education 2021** Alexander W. Wiseman,2022-07-19 The Annual Review of Comparative and International Education 2021 Part B begins with several chapters exploring conceptual and methodological developments in comparative and international education followed by studies exploring research to practice and new developments in comparative and international education **The Southern Diaspora** James Noble Gregory,2005 Southern Diaspora How the Great Migrations of Black and White Southerners Transformed America **The White Africans** Gerald L'Ange,2005 This informal history gives a warts and all account of the European experience in Africa from the explorations of the 15th century Portuguese mariners to the presidential inauguration of Nelson Mandela formally ending white supremacy everywhere in the continent *British Asians. The diaspora's relationship with their new homeland* Marta Zapala-Kraj,2015-01-30 Research Paper postgraduate from the year 2014 in the subject English Language and Literature Studies Culture and Applied Geography grade 5 0 language English abstract Young Asians do not have language difficulties This means that as more Asian children grow up in Britain there will be more chance to create friendships across ethnic boundaries at least in theory However both Asian parents and young people still face hostility and sometimes discrimination from some sections of the white population which discourages inter ethnic friendships There is a strong tendency to see South Asians in Britain but not as part of Britain The representation of Asians in Britain continues to be refracted through a prism which is unable to come to terms with the postcolonial nature of the South Asian presence South Asian culture continues to be regarded as static traditional or antimodern patriarchal and authoritarian This is in contrast to British Western culture Here the most important obstacle is the idea of Western culture and values as being the norm and criterion in relation to which other cultures have to be positioned **The Nation** ,1924 **White Diaspora** Catherine Jurca,2011-11-28 This is the first book to analyze our

suburban literary tradition Tracing the suburb's emergence as a crucial setting and subject of the twentieth century American novel Catherine Jurca identifies a decidedly masculine obsession with the suburban home and a preoccupation with its alternative the experience of spiritual and emotional dislocation that she terms homelessness In the process she challenges representations of white suburbia as prostrated by its own privileges In novels as disparate as Tarzan written by Tarzana California real estate developer Edgar Rice Burroughs Richard Wright's Native Son and recent fiction by John Updike and Richard Ford Jurca finds an emphasis on the suburb under siege a place where the fortunate tend to see themselves as powerless From Babbitt to Rabbit the suburban novel casts property owners living in communities of their choosing as dispossessed people Material advantages become artifacts of oppression and affluence is fraudulently identified as impoverishment The fantasy of victimization reimagines white flight as a white diaspora Extending innovative trends in the study of nineteenth century American culture Jurca's analysis suggests that self pity has played a constitutive role in white middle class identity in the twentieth century It breaks new ground in literary history and cultural studies while telling the story of one of our most revered and reviled locations the little suburban house at number one million and ten Volstead Avenue that Edith Wharton warned would ruin American life and letters *Diaspora*, 2003 **Not Quite White** Matthew Taylor Wray, 2000

When China Rules the World Martin Jacques, 2009 For over two hundred years we have lived in a western made world one where the very notion of being modern was synonymous with being western This original and ground breaking new book argues that the twenty first century will be different With the rise of increasingly powerful non Western countries the west will no longer be dominant and there will be many ways of being modern In this new era of contested modernity the central player will be China Far from becoming a western style society China will remain highly distinctive Continental in size and mentality and accounting for one fifth of humanity China is a civilization state whose characteristics attitudes and values long predate its existence as a nation state China is already having a far reaching and much discussed economic impact but its influence will be far greater than this China's rise signals the end of the global dominance of the western nation state and the rise of a world which it will shape in a host of different ways As it rapidly reassumes its traditional position at the centre of East Asia the old tributary system will be resurface in a modern form contemporary ideas of racial hierarchy will be redrawn and China's ages old sense of superiority will reassert itself China's rise will change the world as we know it from one made in the west to one increasingly shaped by China This profound and far sighted book explains for the first time the deeper meaning of China's arrival as a global power Review, 2003

Between Arab and White Sarah Gualtieri, 2009-05-06 Direct and accessible A tour de force of research that demonstrates seemingly unlikely origins evolutions and contradictions of social identities George Lipsitz author of Footsteps in the Dark and American Studies in a Moment of Danger Global Dimensions of the African Diaspora Joseph E.
