Whiteheads Ontology:

Whitehead's Metaphysics of Creativity Friedrich Rapp, Reiner Wiehl, 1990-01-01 Twelve papers presented at the International Whitehead Symposium October 1983 in Bad Homburg West Germany Topics include Whitehead's place in the history of philosophy the connection between empirical results and their metaphysical interpretation cosmological and anthropological dimensions and the relation between the philosophical and theological interpretations of creativity Paper edition unseen 16 95 Annotation copyrighted by Book News Inc Portland OR *Whitehead's Pancreativism* Michel Weber, 2013-05-02 Whitehead's Pancreativism The Basics has provided tools to understand Whitehead secundum Whitehead We now seek to bring him in dialogue with James It will be a pragmatic dialogue looking for two types of synergy to establish the relevance of a Jamesian background to read Whitehead and to adumbrate how Whitehead can help us understand the stakes of James's works After one hundred years of scholarship it appears that James's legacy has mainly been studied from the perspective of his own blend of pragmatism and that this blend has moreover chiefly been put into dialogue with Peirce and analytic philosophy at large This double interpretational shift has allowed James to keep a fair amount of visibility on the academic scene but over the years it has significantly obliterated his vision It is time to rediscover James from the perspective of his radical empiricism Intensity Judith A. Jones, 1998 A central aim of this book is to develop an aesthetically sensitive sense of being that demonstrates the profound and original contributions of process philosophy to realism The result is a book that should be enthusiastically greeted and debated by scholars of Whitehead and by all who are interested in the field of process thought including students of theology literature and feminist studies **Handbook of Whiteheadian Process Thought** Michel Weber, 2013-04-30 Gathering 115 entries written by 101 internationally renowned experts in their fields the Handbook of Whiteheadian Process Thought aims at canvassing the current state of knowledge in Whiteheadian scholarship and at identifying promising directions for future investigations through internal cross elucidation and external interdisciplinary development Two kinds of entries are weaved together in order to interpret Whitehead secundum Whitehead and to read him from the vantage point of interdisciplinary and crossdisciplinary research The thematic entries provide i a broad contextualisation of the issue at stake ii a focus on Whitehead's treatment if any or of a possible Whiteheadian treatment of the issue iii a history of relevant scholarship iv a personal assessment by the Author The biographical entries provide i a brief vita of the targeted thinker ii a sketch of his/her categories relevant to the Whiteheadian scholarship iii a personal assessment of the actual or possible Whiteheadian semantic transfer to or from the thinker **Butler on Whitehead** Roland Faber, Michael Halewood, Deena Lin, 2012-03-22 This volume is based on the first set of formal conversations which brings together the dynamic philosophies of two eminent thinkers Judith Butler and Alfred North Whitehead Each has drawn from a wide palette of disciplines to develop distinctive theories of becoming of syntactical violence and creative opportunities of limitation In bringing together internationally renowned interpreters of Butler and

Whitehead from a variety of fields and disciplines philosophy rhetoric gender and queer studies religion literary and political theory the editors hope to set a standard for the relevance of interdisciplinary philosophical discourse today This volume offers a unique contribution to and for the humanities in the struggles of politics economy ecology and the arts by reaching beyond their closed circles toward understandings that may serve as the basis for the activation of humanity today Considered together Butler and Whitehead delineate a whole new cadre of approaches to long standing problems as well as never before asked questions in the humanities

The Dawn of Cognitive Science L. Albertazzi, 2001-02-28 Current debate in cognitive science from robotics to analysis of vision deals with problems like the perception of form the structure and formation of mental images and their modelling the ecological development of artificial intelligence and cognitive analysis of natural language This book presents the core of theories developed in Central Europe between the late nineteenth and early twentieth centuries by philosophers physicists psychologists and semanticists who shared a dynamic approach and

N. Whitehead Sie besprechen ebenfalls einige enge Affinitäten und kritische Unterschiede zwischen der Whiteheadschen Philosophie Prozess Philosophie und den Gedanken verschiedener der eminentesten Vertreter des deutschen Idealismus und der deutschen Romantik insbesondere Kant Schelling und Hegel These essays by prominent European and American philosophers analyze the influence of the traditions of German Idealism on the thought of the British American philosopher A. N. phenomenologists and philosophers of mathematics will thus find in this book it is hoped helpful materials and methods The categoreal scheme of Whitehead s Process and Reality is discussed rather fully from a logical point of view in the first paper I in the light of the author s previous work on the logico metaphysical theory of events The clarification that results is thought to provide a new depth and precision to the problem of interpreting one of the most difficult books in the recent history of metaphysics and cosmology A detailed examination of some aspects of Hartshorne s recent Creative Synthesis and Philosophic Method is given in II This book is perhaps the most significant work on process philosophy since Process and Reality itself and its logical underpinnings thus merit a full critical discussion
