Who Will Survive:

HIDDEN ON THE BLOCK Tanisha McDowell, 2025-11-22 She vanished on an ordinary morning What nobody knew was that she never left the neighborhood When nineteen year old Nia disappears during the quiet chaos of the COVID shutdown panic sweeps across her Philadelphia block Her family searches desperately Detectives knock on every door True crime bloggers flood the internet with theories But the truth is more terrifying than anyone imagines Nia is only two blocks away Held captive in a vacant rowhome by someone who has been watching her for years Nia survives by studying the monster who stole her When she finally escapes the real nightmare begins The media swarms Neighbors turn into suspects Old secrets surface And investigators uncover evidence proving she was not the only girl he watched As the case unravels Nia must fight not just for justice but for her identity her voice and her place on the block she once called home Haunting Heart pounding Unforgettable Hidden on the Block is a psychological thriller about survival trauma and the horrors hiding in plain sight Fans of Lisa Jewell Gillian Flynn and Karin Slaughter will devour this powerful emotionally charged novel Are you ready to uncover what happened two blocks away

Choose Who Survives Nancy E. Ryan, 2024-09-30 This is not a story of a prude and squeamish reader Real teenagers with real life problems nobody wants to experience are dramatic They escape bad homelife through parties and drugs and found the perfect place to party What they didn't see coming is when they went home from their last party Their town was evacuated because of a lot of puddles of blood Some only realize they were in trouble after showering and some sleeping it off They find themselves aware that there are several dangerous people that they need to be aware of There are several ways they have to be careful because more than one person was choosing who will survive It's a short list

Who Am I? Who Is She? Gerard P. Montague, 2013-05-02 Are persons physical things members of the species homo sapiens which exist solely in materialist form continuous in structure with other living things Or is the issue a more complex one are there more dimensions to being a person than mere physical biological existence These are matters of interest and discussion in many fields of study in this age of individuality In this wide ranging essay the author addresses various aspects of the issue including the history of self and identity The ancient tradition of dualism is rejected in favour of a straightforward holistic and naturalistic account of selfhood it is argued that the mind arises in an emergent sense from the body and personal identity is best expressed in terms of a self reflective and meaningful narrative The approach is principally from an analytic philosophy point of view but also takes on board psychological and sociological aspects of self and identity
