Human Rights and Capitalism Janet Dine,A. Fagan,2006-01-01 Human Rights and Capitalism brings together two important facets of the globalization debate and examines the complex relationship between human rights property rights and capitalist economies Human rights issues have become increasingly important in this debate and their place as harbingers of justice or as an instrument of oppression is fiercely contended Both sides of this issue are considered in the contributions to this book and the complex relationships between human rights human dignity and capitalist economies are the themes running throughout the work Appearing at a time when these issues are a subject of extreme controversy this book is distinguished by its balanced and academic approach The Processes and Practices of Fair Trade Brigitte Granville,Janet Dine,2013 Fairtrade has established itself as a distinct phenomenon within the realm of global consumerism Fairtrade aims to protect small producers against price volatility and inadequate incomes as well as to provide community benefits health care education It relies on consumer purchases of FT products carried out at agreed minimum prices These purchases measure the trust accorded to the scheme which is founded on a system of certification comprising a series of recommended producer welfare enhancing standards that FT products must satisfy Tourism Research Methods Brent W. Ritchie,Peter Burns,Catherine Palmer,2005 Within the tourism industry there is a growing consensus on the need for research to investigate the economic social and environmental impacts of tourism However existing research methods texts are based solely on either the business approach or the social science approach to tourism They often fail to provide real world examples of how to plan implement or analyse tourism related research This book aims to address this divide by integrating theory with practice through the inclusion of specific tourism research case studies alongside research theory It considers a wide range of research issues approaches and techniques with contributions from both experienced and new researchers **The Shop Review** ,1914 *Professional Integrity* Michael S. Pritchard,2006 Examines what it means to be a responsible professional including the sorts of things thoughtful conscientious people ought to perceive and care about *Professional Ethics for the Construction Industry* Rebecca Mirsky,John Schaufelberger,2014-07-25 Construction professionals have a range of demanding responsibilities towards clients their companies and to abide by government regulations It is understandable that busy practitioners could forget their ethical responsibilities in the face of these pressures but maintaining a rigorous ethical standard is crucial to long term success Written to meet the ACCE s requirements for all construction students this textbook draws on the authors industry experience as well as detailed case studies to introduce and explore ethics in the construction industry Within each chapter the authors present the key ethical issues in important areas of construction management such as Contracts and bidding Documentation Codes and Compliance Discrimination and Harassment Client Relations Lists of further reading and discussion questions will help readers at all levels to develop their understanding of this issue Written as a resource to accompany students throughout their degrees this

is the ideal book to give students or practitioners the breadth and depth of understanding required to successfully negotiate the ethical challenges facing the construction organization of today
