Intelligent Software Agents Richard Murch, Tony Johnson, 1999 This book discusses the current state of the use and possible uses of intelligent agent technology

The 14th IEEE International Conference on Automated Software Engineering IEEE Computer Society, 1999 Twenty five papers presented at the October 1999 conference are grouped into sessions having the broad topics of software synthesis requirements elicitation reuse test synthesis analysis verification transformation architecture and automated testing Among the topics are data mining library reuse patterns in user selected applications industrial applications of software synthesis via category theory automated translation of UML models of architectures for verification and simulation using SPIN verification of picture generated code evolving object oriented designs with refactorings automatically detecting mismatches during component based and model based development and an overview of Lutess a specification based tool for testing synchronous software There are also 25 short papers that represent novel work not yet fully mature No subject index Annotation copyrighted by Book News Inc Portland OR

Proceedings of the American Power Conference ,1997

Autonomic Computing Richard Murch, 2004 This book introduces Autonomic Computing This concept is a cornerstone of IBM s strategic initiative and it offers great promise because autonomic computing systems have the ability to manage themselves and dynamically adapt to change in accordance with evolving or dynamic business policies and objectives The term autonomic comes from the autonomic nervous system which controls many organs and muscles in the human body These systems can perform management activities based on situations they observe or sense in the IT environment Rather than IT professionals initiating management activities the system observes something about itself and acts accordingly This allows the IT professional to focus on high value tasks while the technology manages the more mundane operations This book explains how this can be made to happen and the changes that need to be made to make it happen

IROS ,2000
