Originally published in 1962 this book deals with agricultural policies and politics in Britain between 1945 and 1961 The distinctive feature of this period was agricultural partnership a close and pervasive pattern of co operation between the Government and the principal agricultural organizations **The State and the Farmer** L. H. Bailey,2015-06-04 Excerpt from *The State and the Farmer* The immediate basis of this book is a paper on *The State and the Farmer* originating as a presidential address before the Association of American Agricultural Colleges and Experiment Stations at Lansing Michigan May 28 1907 Five hundred copies of this address were printed by order of the Association The demand continuing I decided to expand the principles there expressed and to apply them to a somewhat wider range in doing this I have of course much increased the size of the original paper but the general motive is not different That paper in turn was the result of previous papers and addresses some parts of which were incorporated in it therefore some of the arguments and points of view in this book are likely not to appear to be new to those readers who have followed this class of discussions About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
