State Of Affairs Explorations In Infidelity And Commitment:

The State of Affairs Jean Duncombe, Kaeren Harrison, Graham Allan, Dennis Marsden, 2014-04-08 This volume brings together contributions on the study of sexual affairs in committed personal relationships. The editors enlisted colleagues with varied theoretical and methodological perspectives from Britain, the United States, and other countries. Together their contributions provide a broad cross-national perspective on affairs. Grounded in theoretical discussion, the chapters in this book introduce data collected by a broad range of methods including attitude surveys, large statistical cohort studies, case studies, depth interviews, and group discussions. A number of contributors locate the theoretical discussion of affairs within the broader contemporary ordering of committed relationships, contrasting the liberating and empowering aspects of affairs with the damage they may inflict on society as a whole and on the lives of individuals and families. The themes of passion, transgression, secrecy, lies, betrayal, and gossip are common to a range of chapters throughout. The volume provides broad literature reviews and theoretical discussions concerning particular aspects of affairs such as communication and jealousy. In addition, case studies are used for the more detailed exploration of heterosexual affairs and contemporary developments in gay, male, and lesbian relationships. *The State of Affairs* will be of interest to researchers, scholars, and students in social psychology, communication, sociology, family social, and clinical psychology, and for practitioners in couple counseling.

Cheating on the Sisterhood Lauren Rosewarne, 2009-05-14 Drawing on the author's own experience as the other woman in an affair with an otherwise committed man, this contemporary feminist study is the first to label the role of the woman timing male as sexual terrorist. *Cheating on the Sisterhood: Infidelity and Feminism* is a feminist analysis of the imbroglio of sexual politics, brute sociobiology, and pop-mediated passion that is conjured up when a married man cheats on his wife with a younger single woman. Drawing frankly on her own experience as the other woman, Lauren Rosewarne scrutinizes the alternate readings of the politics of cheating in terms of feminism's program of gender equality. Arguing that contemporary feminism does not automatically endorse or reject any particular choices, she shows what happens when all three parties to the classic triangle happen to be feminists, each trotting out a different set of feminist arguments to justify, vilify, and rationalize his or her actions. Is the other woman this book asks just a tool of the cheating man's assertion of gender dominance over both his mate and his mistress, and a willy-nilly traitor to the sisterhood?

The State of Affairs Esther Perel, 2017-10-10 **The Monogamy Gap** Eric Anderson, 2012-02-07 *The Monogamy Gap* is a groundbreaking volume that explains why men cheat. Drawing on a range of theories across academic disciplines, the book highlights the biological compulsion of the sexual urge, the social construction of the monogamous ideal, and the devastating chasm that lies between them.

Mobile Communication in Everyday Life Joachim Höflich, Maren Hartmann, 2006-05-03 The mobile phone has become an integral part of our everyday life. In this sense, a domestication of a nomadic medium has taken place. For the very reason that the telephone has left its fixed home environment, it requires us to take an ethnographic view.

in describing both this development and the changes taking place therein Mobile Communication in Everyday Life takes a closer look at the mobile phone as an object of inquiry in the tradition of the so called media ethnography Consequently the benefits and limitations of such research designs are the focus of the book Some contributions focus on the tension between private and public communication others on cultural dimensions Overall the book presents a range of the most up to date research in the field of mobile communication

Feeling Hurt in Close Relationships Anita L. Vangelisti, 2009-07-31 *Feeling Hurt in Close Relationships* presents a synthesis of cutting edge research and theory on hurt Being hurt is an inevitable part of close relationships What varies from relationship to relationship is not whether partners hurt each other but how their relationship is affected by hurtful episodes Given the potential influence of hurt feelings on people's interpersonal relationships it is not surprising that scholars have begun to study the antecedents processes and outcomes associated with hurt This collection integrates the various issues addressed by researchers theorists and practitioners who study the causes of hurt feelings the interpersonal events associated with hurt and the ways people respond to hurting and being hurt by others To capture the breadth and depth of the literature in this area the work of scholars from a variety of disciplines including social psychology communication sociology and family studies is highlighted

Lesbian and Gay Parenting Yvette Taylor, 2009-07-30 Much current work on lesbian and gay kinship still overlooks the significance of socio economic status This book explores the intersections between class and sexuality in lesbians and gay men's experiences of parenting and the everyday pathways navigated therein from

initial routes into parenting and household divisions of labour to location preferences schooling choice and community supports In a context of international legal changes this study seeks to situate parents as both sexual and classed subjects interrogating the relevance of class and sexual disadvantages Frequently lesbian and gay families are positioned at the vanguard of transformations in intimacy while often empirically absent in such declarations they are misplaced in this dual over emphasis as agents of social change and sidelined under investigated when compared to the research on heterosexual families This book utilizes the concept of social capital combining a Bourdieusian notion of capital as specifically classed alongside that evidenced in the families of choice literature The theoretical opposition of different frameworks of social capital advances class conceptualisations exploring too the ways that middle classed capitals sometimes do not pay off as a result of occupying non normative sexualities
