**Status Discrimination in Japan** J. Suginothara,1982      **Status Discrimination in Japan, The; Introduction to Buraku Problem** Juichi Suginothara,1982      **Linguistic Stereotyping and Minority Groups in Japan** Nanette Gottlieb,2006-02-01 This book is the first full length study in English to examine the use of discriminatory language in Japan As in other countries there has been much debate about the public use of language deemed demeaning to certain groups within society especially in relation to the issue of minority rights versus freedom of speech Adding a new dimension to the discussion of language and society in Japan the book focuses on an aspect of language and power which highlights some of the dissent underlying Japan s officially promoted ideology of a harmonious society The text presents a revealing examination of the discriminatory language known as sabetsu yogo as identified by five minority groups the Burakumin the Ainu people with physical or mental disabilities women and ethnic groups within Japan      *Transcultural Japan* David Blake Willis,Stephen Murphy-Shigematsu,2007-11-27 *Transcultural Japan* provides a critical examination of being Other in Japan Portraying the multiple intersections of race ethnicity class and gender the book suggests ways in which the transcultural borderlands of Japan reflect globalization in this island nation The authors show the diversity of Japan from the inside revealing an extraordinarily complex new society in sharp contrast to the persistent stereotypical images held of a regimented homogeneous Japan Unsettling as it may be there are powerful arguments here for looking at the meanings of globalization in Japan through these diverse communities and individuals These are not harmonious utopian communities by any means as they are formed in contexts both global and local of unequal power relations Yet it is also clear that the multiple processes associated with globalization lead to larger hybridizations a global m lange of socio cultural political and economic forces and the emergence of what could be called trans local Creolized cultures *Transcultural Japan* reports regional national and cosmopolitan movements Characterized by global flows hybridity and networks this book documents Japan s new lived experiences and rapid metamorphosis Accessible and engaging this broad based volume is an attractive and useful resource for students of Japanese culture and society as well as being a timely and revealing contribution to research scholars and for those interested in race ethnicity cultural identities and transformations      **A History of Discriminated Buraku Communities in Japan** Teraki Nobuaki,Kurokawa Midori,2025-10-01 At the heart of modern Japan there remains an intractable and divisive social problem with its roots in pre history namely the ongoing social discrimination against the D wa communities otherwise known as Buraku Their marginalization and isolation within society as a whole remains a veiled yet contested issue Buraku studies once largely ignored within Japan s academia and by scholarly publishers have developed considerably in the first decades of the twenty first century as the extensive bibliographies of both Japanese and English sources provided here clearly demonstrates The authors of the present study published in Japanese in 2016 and translated here by the Oxford scholar Ian Neary have been able to incorporate this most recent data Because of its

importance as the first Buraku history based on this new research a wider readership was always the authors principal focus Yet it also provides a valuable source book for further study by those wishing to develop their knowledge about the subject from an informed base This history of the Buraku communities and their antecedents is the first such study to be published in English

**Japan's Minorities** Michael Weiner, Early Childhood Education Consultant Michael Weiner, 2003-07-13 Despite a master narrative of cultural and racial homogeneity Japan is home to diverse populations In the face of systematic exclusions and marginalization minority groups have consistently challenged the subordinate identities imposed by the Japanese majority Japan s Minorities addresses a broad range of issues associated with the six principal minority groups in Japan Ainu Burakumin Chinese Koreans Nikkeijin and Okinawans The contributors to this volume show how an overarching discourse of homogeneity has been deployed to exclude the historical experience of minority groups in Japan The chapters provide clear historical introductions to particular groups and place their experiences in the context of contemporary Japanese society

**Japan's Invisible Race** Hiroshi Wagatsuma, George De Vos, 2021-01-08 Modern Japanese share a myth to the effect that they harbor in their midst an inferior race less human than the stock that fathered their nation as a whole These pariahs numbering more than two million are segregated by caste just as firmly as the Negro is in the United States The present volume to which several Japanese and American social scientists have contributed offeres an interdisciplinary description and analysis of this strangely persistent phenomenon inherited from feudal times Its main thesis is that caste and racism are derivatives of identical psychological processes in human personality however differently structure they may be in social institutions It finds that what it terms status anxiety related to defensively held social values leads to a need to segregate disparaged parts of the population on grounds of innate inferiority Until the time of their official emancipation in 1871 the so called eta were distinguished visibly by their special garb Today few clues to their identity are visible yet they remain a distinguishable segregated segment of the population and bear inwardly in a psychological sense the stigma resulting from generations of oppression This volume traces the story of the outcastes in complete detail their origin their stormy post emancipation history and their present leftist political significance Large populations of outcasts live in urban ghettoes within the major cities of south central Japan In some of these metropolitan centers they comprise up to 5 percent of the population but contribute 60 to 65 percent of unemployment and relief roles They have periodic trouble with the police they manifest a delinquency rate more than three times that of the ordinary population their children do poorly in school they are subject to various forms of job discrimination and few marriages are successfully consummated across the caste barrier Some try to escape their past identity by becoming prostitutes or by entering the underworld Those who survive discrimination to achieve status in society either live in fear of exposure if they are passing or overtly maintain their identity in proud isolation Some who live in rural communities have achieved equal economic status with their neighbors but not full social acceptance In their theoretical closing discussion the authors offer a challenging critique of Marxian class theory in introducing the concept

of expressive exploitation that is the psychological use of a subordinate group as a repository of what is disavowed by the values of a culture in a caste society as distinct in form and function from the instrumental economic or political exploitation of subjected minorities in class societies Contributors Gerald Berreman John B Cornell John Donoghue Edward Norbeck John Price Yuzuru Sasaki George O Totten This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1966

**Shattering the Myth of the Homogeneous Society** David Coates, 1990 Political Protest and Social Control in Pre-war Japan Ian Neary, 1989 **Japan : politics, economy, society (1980-1984) : (a select bibliography)** Angelika Pathak, 1985 Proceedings of the British Association for Japanese Studies British Association for Japanese Studies, 1985 *The Social Fabric of Japan*, 2000 This curriculum unit introduces students to the topic of minority identity issues in the context of Japanese society

**European Studies on Japan** Ian Nish, Charles James Dunn, 1979 **Work in Japan**, 1991 **Japan Weekly Mail**, 1894 **Contemporary Industrial Relations in Japan** Taishirō Shirai, 1983 Essays on labour relations in the private sector and public sector in Japan includes a literature survey and discusses trends 1956 1979 internal labour markets wage structure employment security and role of subcontracting quality of working life woman worker working conditions in small scale industries trade unionism trade union structure and financial aspects dispute settlement collective bargaining and impact of top management comments on labour legislation and jurisprudence Diagrams glossary graphs and references *The Japanese Conquest of American Opinion* Montaville Flowers, 1917 **The Japan Daily Mail**, 1900 **The Japan Review**, 1919 Millard's Review of the Far East, 1919
