## Teaching Levi Strauss:

**Teaching Lévi-Strauss** Hans H. Penner, 1998 Claude Lévi Strauss's mid twentieth century work in structural anthropology revolutionized the study of myth kinship and totemism with lasting effects in cultural studies generally and especially in religious studies This book provides an introduction to this revolution through generous excerpts of some of Lévi Strauss's most important writing on religion Reactions and responses both positive and negative to the revolution are also included along with some of Lévi Strauss's replies to his critics A general introduction by volume editor Hans Penner provides a framework for understanding the historical development and contemporary meaning of structuralism for religious studies This volume provides an unparalleled resource for teaching about structuralism *Teaching Collection (Anthropology)*, 2005

**An Analysis of Claude Lévi-Strauss's Structural Anthropology** Jeffrey A. Becker, Kitty Wheeler, 2017-07-05 Claude Lévi Strauss is probably the most complex anthropological theorist of all time His work continues to influence present day thinkers in his field but he is perhaps even more influential beyond it As one of the key figures in the development of what is known today as French theory Lévi Strauss was one of the most important thinkers of the 20th century His theories of interpretation meaning and culture have helped shape the ideas and methodologies of a range of disciplines above all literature and philosophy At the heart of Lévi Strauss's work are the questions of meaning and where meaning comes from As an anthropologist he was primarily interested in what completely different and separate cultures might have in common Crucially he saw how common ground resides not on the surface of cultures i.e. in similar customs but deep inside invisible background structures of thought His quest was to peel away the surface of different cultures through careful interpretation advancing from one layer to another until he discovered the structures that lay behind all of the exterior practices and meanings Infamously challenging his work shows interpretative skills working at the highest most abstract level possible

**Totems and Teachers** Sydel Silverman, 2004 This classic volume edited by Sydel Silverman presents the insiders reflection of distinguished contemporary anthropologists on nine prominent figures who helped shape the discipline This is one of few books that traces the theoretical development of anthropology through the lives of the well known figures who have influenced its historical trajectory **Redescribing the Gospel of Mark** Barry S. Crawford, Merrill P.

Miller, 2017-06-16 A collaborative project with a variety of critical essays This final volume of studies by members of the Society of Biblical Literature's consultation and later seminar on Ancient Myths and Modern Theories of Christian Origins focuses on Mark As with previous volumes the provocative proposals on Christian origins offered by Burton L Mack are tested by applying Jonathan Z Smith's distinctive social theorizing and comparative method Essays examine Mark as an author's writing in a book culture a writing that responded to situations arising out of the first Roman Judean war after the destruction of the Jerusalem temple in 70 CE Contributors William E Arnal Barry S Crawford Burton L Mack Christopher R Matthews Merrill P Miller Jonathan Z Smith and Robyn Faith Walsh explore the southern Levant as a plausible provenance of

the Gospel of Mark and provide a detailed analysis of the construction of Mark as a narrative composed without access to prior narrative sources about Jesus A concluding retrospective follows the work of the seminar its developing discourse and debates and the continuing work of successor groups in the field Features A thorough examination of the relation between structure and event in social and anthropological theory that provides conceptual tools for representing the project of the author of Mark An exploration of the southern Levant as a plausible provenance of the Gospel a permanent site of successive imperial regimes and culturally related peoples A detailed analysis of the construction of Mark as a narrative composed without access to prior narrative sources about Jesus

Visions of Culture Jerry D. Moore, 2012-05-24 This classic textbook now in its fourth edition offers anthropology students a succinct clear and balanced introduction to theoretical developments in the field The key ideas of 25 major theorists are briefly described and unique to this textbook linked to the biographical and fieldwork experiences that helped shape their theories The impact of each scholar on contemporary anthropology is presented along with numerous examples quotations from the theorists writings and a description of the broader intellectual setting in which these anthropologists worked Moore has updated many of the profiles to take into account recent scholarship The book is also more strongly tied in to the companion work *Visions of Culture An Annotated Reader* to encourage the fullest intellectual engagement for students The *Visions of Culture Value Pack* is available when you order directly from AltaMira Press Order these two books as part of the *Visions of Culture Value Pack* using a single isbn for a 20% discount Click here to order online Includes 1 *Visions of Culture An Introduction to Anthropological Theories and Theorists* Fourth Edition Jerry D Moore 2012 2 *Visions of Culture An Annotated Reader* Jerry D Moore 2009 Find full information on the contents of the reader here

*Teaching Reading in the Elementary School* Thomas G. Devine, 1989 The purpose of this book on reading instruction in the elementary school is twofold firstly to share with colleagues some of the significant works of research and theory that suggest answers to important questions about reading instruction and secondly to describe specific teaching strategies implied by these answers The book assumes that reading is a normal human activity in which children may easily engage sees reading always within the context of the other language arts tends to deemphasize reading skills and hierarchies of skills and focuses more than some books on children s literature and content area reading After a brief preface and introduction the 9 chapters deal with the following topics 1 early reading 2 reading familiar words 3 reading unfamiliar words 4 reading to comprehend 5 reading stories 6

reading in the content areas 7 reading to study 8 reading and the other language arts and 9 organizing for instruction Each of the chapters ends with an Idea Box which presents a variety of suggested strategies for improving reading instruction and appropriate references for further reading and study Sr Abstracts ,1977 **Report of the President** University of California, Berkeley,1894 **Annual Report of the President of the University on Behalf of the Regents to His Excellency the Governor of the State of California** University of California, Berkeley,1891 **Report of the President of the University on Behalf of the Regents** California.
