Evaluating Children's Writing Suzanne Bratcher, Linda Ryan, 2003-09-12 *Evaluating Children's Writing: A Handbook of Grading Choices for Classroom Teachers* Second Edition introduces and explains a wide range of specific evaluation strategies used by classroom teachers to arrive at grades and gives explicit instructions for implementing them. Samples of student writing accompany the instructions to illustrate the techniques and an appendix of additional student writing is provided to allow readers to practice particular evaluation strategies. More than just a catalog of grading options, however, this is a handbook with a point of view. Its purpose is to help teachers become intentional about their grading practices. Along with recipes for grading techniques, it offers a philosophy of evaluating student writing that encourages teachers to put grading into a communication context and to make choices among the many options available by determining the instructional purpose of the assignment and considering the advantages and disadvantages of particular grading strategies. Specific grading techniques are integrated with suggestions about the craft of evaluation, guidelines for instructional objectives for student audience analysis and for teacher self-analysis that help define communication contexts. New in the Second Edition: a new chapter on state standards and assessments; a reorganization of the chapter on approaches to grading; additions to the chapter on management systems; additions to the chapter on teaching yourself to grade; additions to the annotated bibliography and updated references throughout the text.

Teaching Children's Literature Christine H. Leland, Mitzi Lewison, Jerome C. Harste, 2022-11-17 Now in its third edition, this indispensable text offers a critical perspective on how to integrate children's literature into the curriculum in effective, purposeful ways. Structured around three mantras that build on each other: Enjoy, Dig deeply, Take action, the book is rich with real examples of teachers implementing critical pedagogy and tools to support students' development as enthusiastic readers and thinkers. The materials and practical strategies focus on issues that impact children's lives: building from students' personal experiences and cultural knowledge by using language to question the everyday world; analyze popular culture and media; understand how power relationships are socially constructed; and consider actions that can be taken to promote social justice. Each chapter features classroom vignettes showcasing the use of literature and inviting conversation; three key principles elaborating the main theme of the chapter; and connecting theory with practice and related research on the topics and their importance for curriculum. Thoroughly revised, the third edition includes new recommendations for teaching with a critical edge and exploring alternative approaches to standardized assessment. With more attention to culturally and linguistically diverse learners and addressing new topics such as censorship and controversial texts, the new edition is essential for courses on teaching children's literature and English Language Arts methods and for every preservice elementary and middle school English teacher. A companion website to enrich and extend the text includes an annotated bibliography of literature selections, suggested text sets, resources by chapter, ideas for professional development, and recommendations for further
