Teaching Functional Academics:

Teaching Functional Academics Michael Bender, Peter J. Valletutti, 1982-01-01 A curriculum developed for the special education teacher who teaches reading writing and arithmetic skills to the mildly handicapped *A Functional Curriculum for Teaching Students with Disabilities: Functional academics* Michael Bender, Peter J. Valletutti, Bernita Sims-Tucker, 1996

A Functional Curriculum for Teaching Students with Disabilities: Functional academics, 1996 **Systematic Instruction of Functional Skills for Students and Adults with Disabilities** Keith Storey, Craig Miner, 2017-02-27 This book provides an overview of systematic instructional strategies and is written in a format so that teachers and other service providers can immediately put the information to use It specifically focuses upon systematic instruction for individuals with disabilities school age and adults and is generic across age groups as well as disability labels The book focuses on improving instructional practices for students and adults with disabilities Practitioners may understand the importance of placing individuals in different settings e g inclusive classrooms supported employment sites but not understand how to improve their skills once they are in that setting This book is intended to give teachers and other service providers the instructional skills for improving the skills of the individuals that they are serving The most unique feature of the text is that it is written specifically for practitioners in the field teachers and adult service providers as well as those in training rather than being written for other academics An advantage of this book is that those preparing teachers and others can easily use it in methods courses as it covers instructional methodology that is seldom covered in detail in most texts College instructors will find the book a good choice for their classes based upon the consistent format throughout the book the readability of the book for students the comprehensive coverage of systematic instruction and the direct applicability to applied settings Others providing instruction supervision and training to direct service providers will find this book useful such as those working in schools as well as those in transition and adult service settings **A Functional Assessment and Curriculum for Teaching Students with Disabilities: Functional academics** Michael Bender, Peter J.
