

Teaching Psychology

Paul Klapper

Teaching Psychology:

Teaching Psychology Douglas A. Bernstein, 2014-06-26 This volume provides thoroughly updated guidelines for preparing and teaching an entire course in psychology Based on best principles and effective psychological and pedagogical research it offers practical suggestions for planning a course choosing teaching methods integrating technology appropriately and effectively developing student evaluation instruments and programs and ideas for evaluation of your own teaching effectiveness While research based this book was developed to be a basic outline of what to do when you teach It is intended as a self help guide for relatively inexperienced psychology teachers whether graduate students or new faculty but also as a core reading assignment for those who train psychology instructors Experienced faculty who wish to hone their teaching skills will find the book useful too

Teaching Psychology Sandra Goss Lucas, Sandra Goss-Lucas, Douglas A. Bernstein, 2004-12-13 Most new psychology instructors enter their first undergraduate classrooms with little or no formal preparation for their role as a teacher The goal of this book is to review the body of teaching research that is available as well as some of the well accepted lore so as to make the first foray into teaching psychology a positive experience Teaching Psychology outlines the major problems and issues confronting psychology teachers It presents an overview of the nuts and bolts of teaching psychology including dealing with troubled and troubling students choosing and using technology developing evaluation instruments and selecting methods for self evaluation Written by two award winning psychology professors with over 50 years of combined teaching experience the book offers a wide range of down to earth suggestions and immediately usable materials intended to help psychology teachers teach better and help students learn more The chapters are organized to roughly parallel the sequence of tasks that new psychology teachers face beginning with goal setting and ending with evaluation of one's teaching Each chapter is chockfull of helpful tools including checklists sample lecture notes writing assignments and grading criteria To make it easier to customize this material these tools are available on an accompanying CD along with a rating sheet for choosing a textbook a student grade record sheet a sample statement on academic integrity and a pool of less than perfect test items to hone item writing skills This book offers guidelines for teaching such as setting goals in line with 10 basic principles of effective teaching planning the basics including choosing a text writing a syllabus and creating a grading system setting a positive tone in the classroom providing tips on asking and answering questions promoting critical thinking and evaluating student performance Intended for psychology graduate students who are learning to teach faculty who train psychology instructors and new psychology faculty at institutions ranging from high schools to universities as well as experienced faculty wishing to hone their teaching skills

Teaching Psychology Jillian Grose-Fifer, Patricia J. Brooks, Maureen O'Connor, 2019-02-12 A guide to an evidence based approach for teaching college level psychology courses Teaching Psychology offers an evidence based student centered approach that is filled with suggestions ideas and practices for teaching college level courses in ways that contribute to student success The

authors draw on current scientific studies of learning memory and development with specific emphasis on classroom studies The authors offer practical advice for applying scholarly research to teaching in ways that maximize student learning and personal growth The authors endorse the use of backward course design emphasizing the importance of identifying learning goals encompassing skills and knowledge and how to assess them before developing the appropriate curriculum for achieving these goals Recognizing the diversity of today s student population this book offers guidance for culturally responsive ethical teaching The text explores techniques for teaching critical thinking qualitative and quantitative reasoning written and oral communication information and technology literacy and collaboration and teamwork The authors explain how to envision the learning objectives teachers want their students to achieve and advise how to select assessments to evaluate if the learning objectives are being met This important resource Offers an evidence based approach designed to help graduate students and new instructors embrace a student centered approach to teaching Contains a wealth of examples of effective student centered teaching techniques Surveys current findings from the Scholarship of Teaching and Learning Draws on the American Psychological Association s five broad goals for the undergraduate Psychology major and shows how to help students build life long skills and Introduces Universal Design for Learning as a framework to support diverse learners Teaching Psychology offers an essential guide to evidence based teaching and provides practical advice for becoming an effective teacher This book is designed to help graduate students new instructors and those wanting to update their teaching methods It is likely to be particularly useful for instructors in psychology and other social science disciplines

Internationalizing the Teaching of Psychology Grant J. Rich,Uwe P. Gielen,Harold Takooshian,2017-07-27 This sourcebook helps psychology professors internationalize their courses It includes contributions from 73 experts worldwide offering broad perspectives and specific suggestions The chapters cover core areas and expanding subdisciplines with annotated bibliographies to help instructors add global dimensions to their courses **Teaching Psychology** James Hartley,Wilbert James McKeachie,1990 This publication is the first to cover the entire field of teaching psychology and includes teaching methods advising and curriculum planning as well as special problems in teaching laboratory and statistics courses The articles selected provide thought provoking reading for an international readership Each of twelve subject oriented sections contains a brief introduction five articles and suggested further readings for those wishing to pursue a particular topic in more detail [The Oxford Handbook of Undergraduate Psychology Education](#) Dana S. Dunn,2015-08-07 The Oxford Handbook of Undergraduate Psychology Education is dedicated to providing comprehensive coverage of teaching pedagogy and professional issues in psychology The Handbook is designed to help psychology educators at each stage of their careers from teaching their first courses and developing their careers to serving as department or program administrators The goal of the Handbook is to provide teachers educators researchers scholars and administrators in psychology with current practical advice on course creation best practices in psychology pedagogy course content

recommendations teaching methods and classroom management strategies advice on student advising and administrative and professional issues such as managing one's career chairing the department organizing the curriculum and conducting assessment among other topics The primary audience for this Handbook is college and university level psychology teachers at both two and four year institutions at the assistant associate and full professor levels as well as department chairs and other psychology program administrators who want to improve teaching and learning within their departments Faculty members in other social science disciplines e.g. sociology education political science will find material in the Handbook to be applicable or adaptable to their own programs and courses

Teaching Psychology in America Charles L. Brewer, 1992-01 While the history of psychology as a discipline is well documented relatively little attention has been paid to the history of pedagogy in the field Teaching Psychology in America A History addresses this unmet need by providing an organized chronology and placing the teaching of psychology in a social and intellectual context A rich source of archival details and historical analyses the 22 chapters present a comprehensive range of topics related to the art and science of teaching psychology comparing the few standard courses taught 100 years ago with the proliferation of specialities and subfields today examining the shifts in curriculum recommendations over time analyzing the changes in textbooks handbooks and teaching related journal articles discussing the role of national and regional conferences and organizations in supporting psychology students and faculty and reviewing the part played by outstanding teachers who have made distinctive contributions to psychology during the past century PsycINFO Database Record c 2004 APA all rights reserved

Research Adventures in University Teaching Sidney Leavitt Pressey, 1927

International Handbook of Psychology Learning and Teaching Joerg Zumbach, Douglas A. Bernstein, Susanne Narciss, Giuseppina Marsico, 2022-12-16 The International Handbook of Psychology Learning and Teaching is a reference work for psychology learning and teaching worldwide that takes a multi faceted approach and includes national international and intercultural perspectives Whether readers are interested in the basics of how and what to teach in training psychology teachers in taking steps to improve their own teaching or in planning or implementing research on psychology learning and teaching this handbook will provide an excellent place to start Chapters address ideas issues and innovations in the teaching of all psychology courses whether offered in psychology programs or as part of curricula in other disciplines The book also presents reviews of relevant literature and best practices related to everything from the basics of course organization to the use of teaching technology Three major sections consisting of several chapters each address Teaching Psychology in Tertiary Higher Education Psychology Learning and Teaching for All Audiences and General Educational and Instructional Approaches to Psychology Learning and Teaching
