Teaching The Library Research Process

Daniel Callison, Leslie B. Preddy

Teaching The Library Research Process:

Teaching the Library Research Process Carol Collier Kuhlthau, 2002 Kuhlthau communication information and library studies Rutgers U provides a practical guide for teaching students how to gather information in a library for a research assignment Seven stages of the library research process are covered initiating a research assignment selecting a topic exploring information formulating a focus collecting information preparing to present and assessing the process The first edition was published in 1985 as a program for teaching students to do a research paper was reprinted in 1994 and appears here for the first time in paperback form No subject index Annotation copyrighted by Book News Inc Portland OR A *Method of Teaching a Library Research Process* Susan Mary Bryan, 1991 **Brainstorms and Blueprints** Barbara K. Stripling, Judy M. Pitts, 1988 Presents strategies and logical processes for teaching library research projects in secondary schools Engaging First-Year Students in Meaningful Library Research Molly Flaspohler, 2011-11-09 Aimed at teaching professionals working with first year students at institutions of higher learning this book provides practical advice and specific strategies for integrating contemporary information literacy competencies into courses intended for novice researchers The book has two main goals to discuss the necessity and value of incorporating information literacy into first year curricula and to provide a variety of practical targeted strategies for doing so The author will introduce and encourage teaching that follows a process driven constructivist framework as a way of engaging first year students in library work that is interesting meaningful and disciplinarily relevant Provides helpful advice and guidance for seamlessly integrating library research competencies into first year courses Offers practical models and real life examples of successful student centered course based library research assignments Is written by an academic librarian with nearly 20 years of experience in the field

The Teaching Library Scott Walter, 2014-04-10 Get the information needed to advocate for the significance of your library How do you make the case that your library is a valuable instruction center The Teaching Library helps librarians assess data on information literacy instruction programs so that they can better support the teaching role of the academic library in campus settings This practical professional resource features case studies from across the United States and Canada in both public and private institutions that offer a variety of evaluation methods Here are the latest easy to adopt ways of measuring your library's direct contribution to student learning on campus and off With a unique multifaceted approach to questions of assessment The Teaching Library is an important resource that not only offers the latest techniques but answers the larger question of how to make use of this data in ways that will best advocate information literacy instruction programs From creating a multidimensional assessment to turning an initiative into a program to teaching and learning goals and beyond this invaluable text covers many of the core issues those in this rapidly evolving field must contend with These contributions reinforce the importance of the learning that takes place in the classroom in the co curriculum the extra curriculum and the surrounding community Some of the key topics covered in The Teaching Library are assessment practices such as 360

analysis attitudinal outcomes based and gap measured integrating the teaching library into core mission vision and values statements presenting the message of a library's value to internal audiences of colleagues building momentum and maintaining it tying information literacy assessment to campus wide assessment activities identifying and reaching end of program learning outcomes assessing the impact of the one shot session on student learning information literacy instruction and the credit course model promoting instruction among Library and Information Science educators and many more The essays in *The Teaching Library* offer viable and practical ways for librarians to demonstrate their direct contribution to student learning in ways consistent with those accepted as valid across the campus An important resource for academic librarians and Information Science professionals *The Teaching Library* is also a useful tool for those in the campus community concerned with developing funding and continuing successful library programs professional staff such as alumni directors faculty and educators looking to make students more successful and researchers
