

THÉÂTRE MOYEN ÂGE. — *La Farce de Maître Pathelin (Le Clos Saint-Laurent)*. — Adaptation de M. Édouard Fournier.

Teatro Medieval

B?rbara Mujica

Teatro Medieval:

The Reinvention of Theatre in Sixteenth-century Europe T. F. Earle, 2017-07-05 The sixteenth century was an exciting period in the history of European theatre. In the Iberian Peninsula, Italy, France, Germany, and England, writers and actors experimented with new dramatic techniques and found new publics. They prepared the way for the better-known dramatists of the next century but produced much work which is valuable in its own right in Latin and in their own vernaculars. The popular theatre of the Middle Ages gave endless material for reinvention by playwrights, and the legacy of the ancient world became a spur to creativity in tragedy and comedy. As soon as readers and audiences had taken in the new plays, they were changed again, taking new forms as the first experiments were themselves modified and reinvented. Writers constantly adapted the texts of plays to meet new requirements. These and other issues are explored by a group of international experts from a comparative perspective, giving particular emphasis to one of the great European comic dramatists, the Portuguese Gil Vicente. Tom Earle is King John II Professor of Portuguese at Oxford. Catarina Fouto is a Lecturer in Portuguese at King's College London.

A History of Spanish Golden Age Drama Henry K. Ziomek, 2021-05-11 Spain's Golden Age, the seventeenth century, left the world one great legacy: the flower of its dramatic genius, the *comedia*. The work of the Golden Age playwrights represents the largest combined body of dramatic literature from a single historical period, comparable in magnitude to classical tragedy and comedy, to Elizabethan drama, and to French neoclassical theater. *A History of Spanish Golden Age Drama* is the first up-to-date survey of the history of the *comedia*, with special emphasis on critical approaches developed during the past ten years. A history of the *comedia* necessarily focuses on the work of Lope de Vega and Calderón de la Barca, but Ziomek also gives full credit to the host of lesser dramatists who followed in the paths blazed by Lope and Calderón and whose individual contributions to particular genres added to the richness of Spanish theater. He also examines the profound influence of the *comedia* on the literature of other cultures.

Spanish Dramatists of the Golden Age Mary Parker, 1998-09-17 The Golden Age of Spanish drama extends from the close of the 15th century to the death of Calderón in 1681. During that time, the humanists as dramatists followed Italy's artistic awakening direction and imitated Classical drama. With originality and dreams of greatness, they subverted the nature of tragedy, modified the approach of Comedy, and invented the New Play, the *Comedia Nueva*. In it, the poet-dramatists introduced important modifications of realism, including imagined reality, Christian symbolism, and theatricality as artistic truth. They elaborate all kinds of syntheses. For this reason, the Spanish Golden Age theater can be viewed as part of a tradition that includes the Greco-Roman comedy and tragedy, Christian tragedy, and the authentic national literary and dramatic tendencies. The entries in this reference book explore the fascinating history of the Golden Age of Spanish drama. The volume begins with an introductory overview of the literary, cultural, and historical contexts that shaped dramatic writing of the period. The book then presents alphabetically arranged essays for nineteen significant Spanish dramatists of the Golden Age. Each essay is written by an expert contributor and

includes biographical information an analysis and evaluation of major works a discussion of critical response to the plays and an extensive bibliography of primary and secondary sources The volume closes with a selected general bibliography of central critical studies of Golden Age Spanish drama

The Medieval Theatre Glynne William Gladstone Wickham,1987-07-09 This is a thoroughly revised edition of Glynne Wickham s important history of the development of dramatic art in Christian Europe Professor Wickham surveys the foundations on which this dramatic art was built the architecture costumes and ceremonial of the imperial court at Byzantium the liturgies of countires in the Eastern and Western Empires and the triumph of the Roman rite and the Romanesque style in Western art Within this context Professor Wickham describes three major influences upon the drama religion recreation and commerce The first produced the liturgical music drama rooted in praise of Christ the King vernacular Corpus Christi drama Saint Plays and Moralities centred on the humanity of Christ The second gave rise to the secular theatres of social recreation based on the games and dances of village communities ad the more sophisticated sex and war games of the nobility The section on commerce shows how the development of the drama was intimately related to questions of funding and management which led during the sixteenth century to the substitution of a professional for an amateur theatre and to a growing emphasis on stage spectacle For this third edition the author has added a substantial section on monastic reform and its effect on Biblical translation and the use of allegory a final chapter charts the transition in different European countries from this medieval Gothic theatre to the neoclassical methods of play construction and representation which flourished for the next two hundred years The book gorges a coherent pattern through a very large and complicated subject It is an excellent introduction to medieval theatre for undergraduates and to the growing number of theatregoers who enjoy contemporary revivals of medieval plays A large plate section gives a pictorial version of the story using photographs of contemporary manuscript illuminations mosaics frescoes paintings and sculptures

A Cultural History of Theatre in the Middle Ages Jody Enders,2019-08-08 Historically and broadly defined as the period between the fall of the Roman Empire and the rise of the Renaissance the Middle Ages encompass a millennium of cultural conflicts and developments A large body of mystery passion miracle and morality plays cohabited with song dance farces and other public spectacles frequently sharing ecclesiastical and secular inspiration A Cultural History of Theatre in the Middle Ages provides a comprehensive and interdisciplinary overview of the cultural history of theatre between 500 and 1500 and imaginatively pieces together the puzzle of medieval theatre by foregrounding the study of performance Each of the ten chapters of this richly illustrated volume takes a different theme as its focus institutional frameworks social functions sexuality and gender the environment of theatre circulation interpretations communities of production repertoire and genres technologies of performance and knowledge transmission

Castilian Writers, 1200-1400 Frank Domínguez,George D. Greenia,2007 Features essays on medieval Castilian writers and the genres of Castilian literature of this time period

New Approaches to European Theater of the Middle Ages Barbara I.

Gusick, Edelgard E. DuBruck, 2004 *New Approaches to European Theater of the Middle Ages An Ontology* examines texts as well as cultural and performative aspects of a wide variety of plays both sacred and secular in England France Germany the Netherlands Spain Italy and Yugoslavia This collection of fourteen articles in English by contributors from both sides of the Atlantic also considers the implications and parameters of communal involvement and the societal theatrical roles of the oppressed the disabled Jews and peasants This book has been designed to appeal to specialists students and teachers of medieval drama psychology religion and hagiography literature and art and to readers in general *Teatro Medieval Y Renacentista* J. Huerta Calvo, 1984 *A Companion to the Medieval Theatre* Ronald W. Vince, 1989-03-27 Vince has provided a useful and for the most part usable reference work His introduction should be required reading for anyone approaching medieval theater Choice Scholars increasingly see medieval theatre as a complex and vital performance medium related more closely to political religious and social life than to literature as we know it Reflecting the current interest in performance *A Companion to the Medieval Theatre* presents 250 alphabetically arranged entries offering a panoramic view of European and British theatrical productions between the years 900 and 1550 The volume features 30 essays contributed by an international group of specialists and includes many shorter entries as well as systematic cross referencing a chronology a bibliography and a full complement of indexes Major entries focus on the theatres of the principal linguistic areas the British Isles France Germany Iberia Italy Scandinavia the Low Countries and Eastern Europe and on dramatic forms and genres such as liturgical drama Passion and saint plays morality plays folk drama and Humanist drama Other articles examine costume acting pageantry and music and explore the theatrical dimension of courtly entertainment the dance and the tournament Short entries supply information on over one hundred playwrights directors actors and antiquarians whose contributions to the theatre have been documented This informative guide brings new depth to our appreciation of the richness and color of medieval public entertainments and the symbolism and pageantry that were a part of daily life in the Middle Ages Designed to appeal to general reader this volume is also an attractive choice for libraries serving students and scholars of theatre history English and European literatures medieval history cultural history drama and performance

The Medieval Theater of Cruelty Jody Enders, 2018-08-06 Why did medieval dramatists weave so many scenes of torture into their plays Exploring the cultural connections among rhetoric law drama literary creation and violence Jody Enders addresses an issue that has long troubled students of the Middle Ages Theories of rhetoric and law of the time reveal she points out that the ideology of torture was a widely accepted means for exploiting such essential elements of the stage and stagecraft as dramatic verisimilitude pity fear and catharsis to fabricate truth Analyzing the consequences of torture for the history of aesthetics in general and of drama in particular Enders shows that if the violence embedded in the history of rhetoric is acknowledged we are better able to understand not only the enduring theater of cruelty identified by theorists from Isidore of Seville to Antonin Artaud but also the continuing modern devotion to the spectacle of pain
