Current Catalog National Library of Medicine (U.S.), First multi year cumulation covers six years 1965-70. Technical Problems in Patients on Hemodialysis Maria Goretti Penido, 2011-12-07. This book provides an overview of technical aspects in treatment of hemodialysis patients. Authors have contributed their most interesting findings in dealing with hemodialysis from the aspect of the tools and techniques used. Each chapter has been thoroughly revised and updated so the readers are acquainted with the latest data and observations in the area where several aspects are to be considered. The book is comprehensive and not limited to a partial discussion of hemodialysis. To accomplish this we are pleased to have been able to summarize state of the art knowledge in each chapter of the book.

Technologies A. J. Culyer, B. Horisberger, 2012-12-06. All too frequently the largest effective barrier to interdisciplinary communication is jargon. The symposium whose proceedings appear in the following pages sought of course to eliminate unnecessary and obscurantist jargon, but it sought also to do something far more ambitious: to confront the intellectual issues

that are attached to the use of the word evaluation in medicine and health services To this end a carefully selected group of experts in medicine epidemiology and health economics was invited to present papers They were selected for their reputations either as conceptualizers or as empirical evaluators or the rarest breed of expert as both The context was to be empirical Three procedures were selected that had been subject to evaluation but that posed rather different types of problem The first was the treatment of renal failure by dialysis of various kinds This has a relatively long history of evaluation with a large literature and particularly raises broad policy issues within the health services of Western societies as to the size of programmes to be provided the type location and mix of treatments the selection of patients to receive treatment and the measurement of the success of various strategies The second was the treatment of duodenal ulcer by a new species of drug the histamine H₂ receptor antagonists specifically cimetidine *Peritoneal Dialysis* Robert Charles Atkins,1981
