## **The Sugarbush:**

Sugarbush Management David R. Houston, Douglas C. Allen, Denis Lachance, 1989      **General Technical Report NE**  
,1980      **The Sugarbush** Jerry S. Jones, 2004-04 In 1932 with Prohibition nearing its end the sheriff of Catawba County led a routine raid in search of a moonshine liquor distillery reported to be hidden deep in the woods along the Catawba River eleven miles northeast of the county seat of Newton North Carolina in the notorious community known at that time as Catfish The raid turned out to be anything but routine In the aftermath of the ill fated raid sixteen arrest warrants concealed in the sheriff s coat pocket fell into the hands of the moonshiners he sought to apprehend In defiance of overwhelming odds the insignificant theft of the warrants set in motion a period of violence death rape and murder that had no boundaries invading every corner of the county and every walk of life Fighting public and political pressure to make arrests based purely on a maze of circumstantial evidence plagued with inconsistencies he could not reconcile the sheriff was frustrated by missed opportunities wild goose chases and the arrogant brazen daring of the killer Bizarre tragedies accompanied by completely unexpected twists and turns crept into the sanctity of wealth and power dragging the investigation into the revolting bowels of perversion and depravity confirming once again that evil has no quarter From behind the cloud of a savage double murder the sun broke through to shine on two lonely young people struggling to find purpose meaning and hope in the future They found all three and more in a refreshing passionate and enduring romance In a heart wrenching conclusion equally as bizarre and baffling as the beginning the reign of terror comes to an end controversial yes but no less an end      Skiing ,1980-01

**Bulletin** Melvin Ray Koelling, Randall Bruce Heiligmann, 1996      Skiing ,1976-02      **New Perspectives on Silvicultural Management of Northern Hardwoods** C. Wayne Martin, Charles Tattersall Smith, Louise M. Tritton, 1989  
Maple Sugar and the Sugar-bush Albert John Cook, 1887      **Nontimber Forest Products in the United States** Eric T. Jones, Rebecca Jean McLain, James F. Weigand, 2002 A quiet revolution is taking place in America s forests Once seen primarily as stands of timber our woodlands are now prized as a rich source of a wide range of commodities from wild mushrooms and maple sugar to hundreds of medicinal plants whose uses have only begun to be fully realized Now as timber harvesting becomes more mechanized and requires less labor the image of the lumberjack is being replaced by that of the forager This book provides the first comprehensive examination of nontimber forest products NTFPs in the United States illustrating their diverse importance describing the people who harvest them and outlining the steps that are being taken to ensure access to them As the first extensive national overview of NTFP policy and management specific to the United States it brings together research from numerous disciplines and analytical perspectives such as economics mycology history ecology law entomology forestry geography and anthropology in order to provide a cohesive picture of the current and potential role of NTFPs The contributors review the state of scientific knowledge of NTFPs by offering a survey of commercial and noncommercial products an overview of uses and users and discussions of sustainable management issues

associated with ecology cultural traditions forest policy and commerce They examine some of the major social economic and biological benefits of NTFPs while also addressing the potential negative consequences of NTFP harvesting on forest ecosystems and on NTFP species populations Within this wealth of information are rich accounts of NTFP use drawn from all parts of the American landscape from the Pacific Northwest to the Caribbean From honey production to a review of nontimber forest economies still active in the United States such as the Ojibway harvest of plants recounted here the book takes in the whole breadth of recent NTFP issues including ecological concerns associated with the expansion of NTFP markets and NTFP tenure issues on federally managed lands No other volume offers such a comprehensive overview of NTFPs in North America By examining all aspects of these products it contributes to the development of more sophisticated policy and management frameworks for not only ensuring their ongoing use but also protecting the future of our forests
