The State Against Blacks:

The State Against Blacks Walter Edward Williams,1984 *Affirmative Action and the Stalled Quest for Black Progress* Willie Avon Drake,Robert D. Holsworth,1996 Essential reading for anyone hoping to understand the national controversy about set asides and other forms of affirmative action I strongly recommend this book to sociologists political scientists politicians and business leaders as an analysis of race relations and economic development Lewis M Killian author of *Black and White Reflections of a White Southern Sociologist* This path breaking study examines the accomplishments and limitations of the set aside programs that have moved to the center of national political debate about affirmative action in the United States Balanced yet candid it focuses on the landmark case of *Richmond v Croson* in which the U S Supreme Court ruled against the city of Richmond s set aside program which required that thirty percent of the money in city construction contracts be awarded to minority firms The authors describe the politics that gave rise to the set aside program investigate its actual operation explore its effects and detail responses to it in both black and white communities They document that while the program served important political purposes it produced limited economic benefits for the broader African American community and conclude with an examination of the politics of development as an alternative to the set aside framework that has been central to urban politics

The State of Black America 1981 James D. Williams,1981-01-01

The African Post-colonial State and its Challenges Godfrey Mwakikagile,2022 Godfrey Mwakikagile looks at the African post colonial state and the challenges it faces He contends that it is structurally flawed and does not reflect African realities It is an oppressive machinery and an apparatus of power to serve the interests of the ruling class and the elite at the expense of ordinary citizens and the masses And it has retained the institutional structure of the colonial state instead of undergoing fundamental transformation to become truly African Mwakikagile focuses on a number of countries providing case studies whose relevance is continental in scope He contends that bad leadership is the biggest problem African countries have faced through the decades and everything else revolves around it The collapse of a number of African states in the post colonial era bears testimony to that

The Black Register Tendayi Sithole,2020-04-09 How can thinkers grapple with the question of the human when they have been dehumanized How can black thinkers confront and make sense of a world structured by antiblackness a world that militates against the very existence of blacks These are the questions that guide Tendayi Sithole s brilliant analyses of the work of Sylvia Wynter Aim C saire Steve Biko Assata Shakur George Jackson Mabogo P More and a critique of Giorgio Agamben Through his careful interrogation of their writings Sithole shows how the black register represents a uniquely critical perspective from which to confront worlds that are systematically structured to dehumanize The black register is the ways of thinking knowing and doing that emerge from existential struggles against antiblackness and that dwell in the lived experience of being black in an antiblack world The black register is the force of critique that comes from thinkers who are

dehumanized and who in turn question define and analyze the reality that they are in in order to reframe it and unmask the forces that inform subjection This book redefines the arc of critical black thought over the last seventy five years and it will be an indispensable text for anyone concerned with the deep and enduring ways in which race structures our world and our thought
