**Story Keepers** Jennifer David, 2004 Before the 1970s aboriginal literature in Canada was virtually non-existent. Now barely thirty years later a vibrant community of writers is winning awards, challenging readers, and sharing unique experiences. They are the Story Keepers from cover **Forthcoming Books** Rose Arny, 1998 *The Message of Creation* David Wilkinson, 2020-05-21 This is a journey through the Bible which is an exploratory walk rather than a motorway dash. The large number and diversity of biblical passages dealing with the theme of creation underlines its central importance to the biblical message. As a theologian whose focus is the Bible and as an eminent astrophysicist whose subject is the visible universe, David Wilkinson is well placed to try to capture some of the richness of the biblical portrayal of creation. The key to this portrait, believes David Wilkinson, is to see Father, Son, and Spirit in the beginning, the sustaining, and the new beginning of creation, giving life and love in a generosity beyond our imaginings **Books in Print Supplement**, 2002 **Children's Books in Print 1998** Bowker Editorial Staff, R. R. Bowker Publishing, Bowker, 1998 **The Oral History Project** Diane Skiffington Dickson, 2006 The Oral History Project is a publication whose time has come. At a time when fill-in-the-blank exercises, short-answer assessments, and left-brain thinking is the vogue, the Oral History Project says, "Wait a minute! What about long thinking and right-brain activity? Can there be anything more valuable than that?" Donald H. Graves: "You've heard 'Buy local and think global; act local.' Now here's a stirring take on the idea for classroom teachers: 'Learn local.' With the Oral History Project, you can help your students do just that: interviewing members of the surrounding community and creating a final project that combines crucial reading, writing, speaking, questioning, and listening skills into a powerful literacy-based learning experience. The Oral History Project is a complete guide to a proven, effective oral history project that will motivate and engage your students, connect them to their community, and teach them valuable, lifelong skills. Your kids will sharpen their language arts abilities and uncover new competencies as they select an interviewee and compose questions that generate great stories, build background knowledge on their subject's life through traditional and Web-based research methods, find primary sources and artifacts to build connections between interviewer and interviewee, conduct the interview, write a feature article that documents and shares the subject's oral history, write a personal memoir from the person's point of view, assemble all the parts into a cohesive oral and visual presentation, create an original piece of research. In addition, The Oral History Project includes a CD that can be used by individual teachers or staff developers to become familiar with the essential components of the project. It demonstrates how this multidimensional learning experience works in the classroom."
