The Stratospheric Canticles:

The Stratospheric Canticles Will Alexander, 1995 Will Alexander's Poetics Joshua Schuster, 2025-09-26 This volume brings together academic and poetic essays which focus on Will Alexander's complete oeuvre. The collection explores Alexander's long career in African American avant-garde poetry and sheds light on other genres of Alexander's work in addition to poetry including essays, plays, aphorisms, novels, dialogues, and drawings. Each contribution contextualizes Alexander's work in the many traditions and literatures his work draws from, including African American poetics, ecopoetics, post-colonial and anti-colonial poetics, bio and geo-histories, and global practices of consciousness-raising and spiritual transformation among other topics. The volume also includes a new interview with Alexander as well as one of his long unpublished poems. Alexander's writings are multi-generic and traverse many fields and states of consciousness. This edited collection thus provides a deep and sustained engagement with Alexander's work, surveying how it has transformed the landscape of poetics, the avant-garde, and the individual reader.

The PIP Anthology of World Poetry of the 20th Century Douglas Messerli, 2000. The fifth volume of this acclaimed anthology features the work of innovative poets of southern California. This gathering of 28 poets does not write a particular kind of poetry but, as individuals, they have worked together through a series of intersecting ideas and interests to create some of the best writing of contemporary poetry, contradicting many of the simplistic notions of people outside of the region. In his introduction, editor Douglas Messerli provides a complete history of the loosely knit group and the interrelationships within it.

This interdisciplinary collection examines the unacknowledged affinities and crucial differences between avant-garde and diasporic formal strategies and social formations.
