Children's Propaganda Games of the Second World War Nicholas Milton,2024-07-31 From puzzles and cards to pinball and die games find out about the children s games produced as propaganda during World War II During the Second World War hundreds of games were manufactured by the British Germans and Americans aimed at children Despite being cheaply made due to the wartime economy the games were often fun to play and challenging to win They also had considerable propaganda value helping to manipulate children into supporting the war To get their attention many of the games incorporated dramatic artwork and were based on real wartime events from the evacuation of children in 1939 to the dropping of the atomic bomb in 1945 This book features a large selection of different games produced by the British Germans and Americans and tells the stories behind their wartime propaganda The Nazis in particular prided themselves on producing games which promoted and glamourised war exploiting children s patriotism and pride in German conquests Some of their most insidious games included Juden Raus Jews Out and Bomber u ber England Bomber over England However the British and Americans also produced unethical games like Target for Tonight which promoted the carpet bombing of Germany and Atomic Bomb a dexterity puzzle about the nuclear bombing of Japan The games featured in this book include roll and move games with a board and die pinball and similar shooting games dexterity and other puzzles and card games They were made out of paper card wood rubber bakelite plastic and initially metal Remarkably despite wartime restrictions games were manufactured throughout the conflict to meet the demand from boys and girls as they closely followed the changing fortunes of the war Today many of the games have become scarce so for collectors a guide to their value and rarity is included

Stuka Volume Two Peter C. Smith,Professor of Health Policy Imperial College Business School & Institute for Global Health Peter C Smith,2008-01-24 During the first phase of World War II the German forces advancing on all fronts the Ju87 Stuka had been an essential element in the Luftwaffe s armory attack However from mid 1943 as the War drug on the Stuka began incurring heavy losses Dunkirk Warsaw Rotterdam and other early victories became distant memories as severe reversals came about in the East Wherever possible and often against overwhelming resources the Stukas supported the retreating German armies by conducting not just precision dive bombing missions but low level ground attack operations

against enemy transport targets gun positions and ships This second and concluding volume in this series examines the role of the Stuka during these years of retreat Aspects of the Stuka s role which the book recounts includes the attacks against the Malta convoys the retreat in North Africa the war over the Arctic the Russian campaign including the battle for Stalingrad and the collapse of the Eastern front This volume contains an impressive selection of historic photos color artworks and first hand accounts from those who flew the aircraft *Bombers, the Weapon of Total War* Brian Johnson, H. A. Claasen, 2001 Adolf Hitler had high hopes for his conquest of Norway which held both great symbolic and great strategic value for the Fuhrer Despite early successes however his ambitious northern campaign foundered and ultimately failed Adam Claasen for

the first time reveals the full story of this neglected episode and shows how it helped doom the Third Reich to defeat Hitler and Raeder the chief of the German navy were determined to take and keep Norway By doing so they hoped to preempt Allied attempts to outflank Germany protect sea lanes for German ships access precious Scandinavian minerals for war production and provide a launchpad for Luftwaffe and naval operations against Great Britain Beyond those strategic objectives Hitler also envisioned Norway as part of a pan Nordic stronghold a centerpiece of his new world order But as Claasen shows Hitler s grand expectations were never realized Gring s Luftwaffe was the vital spearhead in the invasion of Norway which marked a number of wartime firsts Among other things it involved the first large scale aerial operations over sea rather than land the first time operational objectives and logistical needs were fulfilled by air power and the first deployment of paratroopers Although it got off to a promising start the German effort particularly against British and arctic convoys was greatly hampered by flawed strategic thinking interservice rivalries between the Luftwaffe and navy the failure to develop a long range heavy bomber the diversion of planes and personnel to shore up the German war effort elsewhere and the northern theater s harsh climate and terrain Claasen s study covers every aspect of this ill fated campaign from the 1940 invasion until war s end and shows how it was eventually relegated to a backwater status as Germany fought to survive in an increasingly unwinnable war His compelling account sharpens our picture of the German air force and widens our understanding of the Third Reich s way of war

The Stuka Bob Carruthers,2013 This is a comprehensive overview of the stuka dive bomber It draws heavily on post war interviews with Luftwaffe pilots and staff officers to produce a fascinating insight into the stuka at the tactical and operational level Also featured are rare English translations of articles from Der Adler the Luftwaffe s in house magazine

The Luftwaffe James S. Corum,1997 This study provides an appraisal of Germany s air forces from the post World War I era through the early stages of World War II The author demolishes several myths surrounding the Luftwaffe including the belief that they had no ideas beyond the support of ground forces
