Crespi,2009-07-29 China s century of revolutionary change has been heard as much as seen and nowhere is this more evident than in an auditory history of the modern Chinese poem From Lu Xun s seminal writings on literature to a recitation renaissance in urban centers today poetics meets politics in the sounding voice of poetry Supported throughout by vivid narration and accessible analysis *Voices in Revolution* offers a literary history of modern China that makes the case for the importance of the auditory dimension of

poetry in national revolutionary and postsocialist culture Crespi brings the past to life by first examining the ideological changes to poetic voice during China's early twentieth century transition from empire to nation He then traces the emergence of the spoken poem from the May Fourth period to the present including its mobilization during the Anti Japanese War its incorporation into the student protest repertoire during China's civil war its role as a conflicted voice of Mao era revolutionary passion and finally its current adaptation to the cultural life of China's party guided market economy *Voices in Revolution* alters the way we read by moving poems off the page and into the real time and space of literary activity To all readers it offers an accessible yet conceptually fresh and often dramatic narration of China's modern literary experience Specialists will appreciate the book's inclusion of noncanonical texts as well as its innovative interdisciplinary approach
