**A Spectrum of Voices** Elizabeth L. Blades, 2017-12-15 Since the publication of the first edition of *A Spectrum of Voices* there have been significant advances in voice studies. Prominent members of the new generation of voice teachers join their voices with now canonized teachings. Asking questions about technology pedagogy and stylistic changes within the field, Elizabeth L. Blades brings the wisdom from the past and present to voice students at all levels. *A Spectrum of Voices* draws from the brilliance and combined experience of an elite group of exemplary voice teachers presenting interviews from more than twenty-five notable teachers, six of them new to this second edition. Voice teachers offer valuable insight into their teaching philosophies, the types of auxiliary training they recommend to their students, and how they structure their lessons. This second edition also addresses significant technological advances of the past twenty years, especially the impact on vocal performance and pedagogy. A quick and handy reference for the studio teacher, this book also serves as a text for vocal pedagogy courses and as an essential supplement for physiology and vocal mechanics teachers and students of singing, music educators, and musical theater performers.

**New Labour's Women MPs** Sarah Childs, 2004-07-31 It was not long after the election of a record number of women to the House of Commons in 1997 that the backlash began. The criticism was all encompassing: they wore the wrong clothes, they voted the wrong way, and they were concerned with the wrong issues. Above all, they were accused of failing to make a difference to have failed women and were dismissed by some as Blair's Babes. Drawing on in-depth interviews with more than half of the new Labour women MPs, Sarah Childs reveals how these women actually experienced being MPs and explores whether they acted for and like women in their constituencies in parliament and in government. She presents important insights into theories of women's political representation, showing that the relationship between women's descriptive and substantive representation is complicated, that party and gender identities are crucial, that women's differences must be acknowledged, and that it might not always be possible for women representatives to act for women even if they want to. Including a key section on women's selection for parliament, whether women MPs act as role models, why it is important that women should be present in politics, as well as exploring in depth the subject of women's substantive representation, *New Labour's Women MPs* is essential reading for all those interested in women and politics, legislative studies, political behaviour, and representation.

**The Cambridge Companion to the African Novel** F. Abiola Irele, 2009-07-23 Africa's strong tradition of storytelling has long been an expression of an oral narrative culture. African writers such as Amos Tutuola, Naguib Mahfouz, Wole Soyinka, and J. M. Coetzee have adapted these older forms to develop and enhance the genre of the novel in a shift from the oral mode to print. Comprehensive in scope, these new essays cover the fiction in the European languages from North Africa and Africa south of the Sahara, as well as in Arabic. They highlight the themes and styles of the African novel through an examination of the works that have either attained canonical

status an entire chapter is devoted to the work of Chinua Achebe or can be expected to do so Including a guide to further reading and a chronology this is the ideal starting point for students of African and world literatures The Birchard Broadsheet ,1930 **Female Mythologies in Contemporary Chicana Literature** Nadine Gebhardt,2007-08 Thesis M A from the year 2005 in the subject American Studies Literature grade 1 0 Ernst Moritz Arndt University of Greifswald language English abstract In Mexican American Chicano culture feminine archetypes from the Mexican tradition play an important role for woman s subjectivity Traditionally such archetypes epitomize Catholic patriarchal constructions of womanhood Idolized by the figures of the Virgin of Guadalupe La Malinche and La Llorona the most prevailing representations of female sexuality and motherhood evolve around the passive virgin the sinful seductress and the traitorous mother Along the lines of Chicana feminism the traditional definitions of these feminine archetypes can be seen as promoting an image of woman that is detrimental to female subjectivity Although there are three figures these archetypes evoke a binary opposition that defines woman as either good woman or bad woman virgin or whore As such they limit and circumscribe the Chicana s development of subjectivity But these cultural icons may also epitomize feminine power and hence provide the Chicana with possible feminist role models to back up her emancipation Chicana feminists have employed creative writing to counter the Catholic patriarchal discourse on the Virgin of Guadalupe Malinche and La Llorona As they explore these cultural archetypes in their novels short stories and poems Chicana feminists attempt to reveal the mechanisms by which the original images of these mythic figures have been subverted disempowered and distorted But most importantly they seek to deconstruct the virgin whore dichotomy by rewriting the mythic figures Through a revision of existing myths Chicana writers are able to create a feminist mythology that is rooted in cultural tradition but simultaneously serves as an act of resistance to the dominant discourse This Master s thesis will explore the mythic figures of Guadalupe Malinche and La Llorona in all *Catalog of Copyright Entries* Library of Congress.
