The Voices of #MeToo Carly Gieseler, 2019-07-23 The Voices of MeToo From Grassroots Activism to a Viral Roar is a timely analysis of how marginalized voices are engaged or silenced in one of the most successful social media projects in recent history Accessibly written this book unravels the ideas and practices of activism throughout the MeToo movement from its inception to its current viral moment The movement went viral with a tweet from Alyssa Milano after the avalanche of sexual harassment and assault allegations against movie mogul Harvey Weinstein The hashtag however got its start from African American grassroots activist Tarana Burke a decade earlier Taking this as her starting place Gieseler focuses on the marginalized communities that are often ignored once a movement goes mainstream With chapters on black female activism the LGBTQ community and disability toxic masculinity and international responses The Voices of MeToo issues a call for all movements to become more inclusive as they seek empowerment and resistance against oppressive and abusive forces Perhaps in exploring issues of social justice through an intersectional lens we may all begin to hear and amplify the voices that are often silenced in the louder viral roar

I Bring the Voices of My People Chanequa Walker-Barnes, 2019-10-01 Disrupting the racist and sexist biases in conversations on reconciliation Chanequa Walker Barnes offers a compelling argument that the Christian racial reconciliation movement is incapable of responding to modern day racism She demonstrates how reconciliation's roots in the evangelical male centered Promise Keepers movement has resulted in a patriarchal and largely symbolic effort focused upon improving relationships between men from various racial ethnic groups Walker Barnes argues that highlighting the voices of women of color is critical to developing any genuine efforts toward reconciliation Drawing upon intersectionality theory and critical race studies she demonstrates how living at the intersection of racism and sexism exposes women of color to unique experiences of gendered racism that are not about relationships but rather are about systems of power and inequity Refuting the idea that race and racism are one size fits all I Bring the Voices of My People highlights the particular work that White Americans must do to repent of racism and to work toward racial justice and offers a constructive view of reconciliation that prioritizes eliminating racial injustice and healing the damage that it has done to African Americans and other people of color

**Voices of Women Historians** Eileen Boris, Nupur Chaudhuri, 1999-09-22 The Coordinating Council for Women in History evolved from a cohort of women historians who turned their scholarly focus to the recovery of women's experiences In so doing they created and legitimated the field of women's history The contributors to this volume former CCWH officers mark the 30th anniversary of the organization while commemorating three decades of feminist activism and scholarship Recording the diverse paths women have taken to become historians the essays contained in this book describe how a particular group of women negotiated the often competing demands of being a woman a professional and a political activist from the turbulent 1960s through the challenges of the 1990s But beyond the celebration of personal and professional progress this collection contributes to the emerging
