Blee,2009 Ignorant Brutal Male One of these stereotypes of the Ku Klux Klan offers a misleading picture In *Women of the Klan* sociologist Kathleen M Blee dismantles the popular notion that politically involved women are always inspired by pacifism equality and justice In her new preface Blee reflects on how recent scholarship on gender and right wing extremism suggests new ways to understand women s place in the 1920s Klan s crusade for white and Christian supremacy *The Whispering Women* Trish MacEnulty,2024-11-09

Women's Voices in Digital Media Jennifer O'Meara,2022-04-26 2023 Publication Award Honorable Mention British Association for Film Television and Screen Studies An examination of the sound and silence of women in digital media In today s digital era women s voices are heard everywhere from smart home devices to social media platforms virtual reality podcasts and even memes but these new forms of communication are often accompanied by dated gender politics In *Women s Voices in Digital Media* Jennifer O Meara dives into new and well established media formats to show how contemporary screen media and cultural practices police and fetishize women s voices but also provide exciting new ways to amplify and empower them As she travels through the digital world O Meara discovers newly acknowledged or newly erased female voice actors from classic films on YouTube meets the AI and digital avatars in Her and The Congress and hears women s voices being disembodied in new ways via podcasts and VR voice overs She engages with dialogue that is spreading with only the memory of a voice looking at how popular media like *Clueless* and *The Simpsons* have been mined for feminist memes and encounters vocal ventriloquism on RuPaul s *Drag Race* that queers and valorizes the female voice Through these detailed case studies O Meara argues that the digital proliferation of screens alters the reception of sounds as much as that of images with substantial implications for women s voices **Voices in the Drum** R. David Edmunds,2023-10-24 The history of indigenous peoples in North America is long and complex Many scholarly accounts now rely on statistical data to reconstruct this past but amid all the facts and figures it is easy to lose sight of the human side of the story How did Native people

express their thoughts and feelings and what sources of strength did they rely on to persevere through centuries of change In this engaging narrative acclaimed historian R David Edmunds combines careful research with creative storytelling to give voice to indigenous individuals and families and to illustrate the impact of pivotal events on their lives A nonfiction account accompanies each narrative to provide necessary historical and cultural context *Voices in the Drum* features nine stories each of which focuses on a fictional character who is a composite or representation of historical people This series of portrayals takes the reader on an epic journey through time beginning in the early 1400s with the Mound Builder cultures and ending with the modern day urbanization of Native people Along the way we observe fictional characters interacting with real historical figures such as Anthony Wayne Tecumseh and John Sutter and taking part in actual events such as the Battle of Fallen Timbers the Trail of Tears the California gold rush and the forced removal of Native children to off reservation boarding schools The people portrayed in these pages belong to various tribes including Potawatomis Lakotas Oneidas and Cherokees Their individual stories ranging from humorous to tragic give readers a palpable sense of how tribal peoples reacted to the disruptive changes forced on them by European colonizers and U S government policies Both entertaining and insightful the stories in this volume traverse a range of time periods events themes and genres As such they reverberate like voices in the drum inviting readers of all backgrounds to engage anew with the rich history and cultures of indigenous peoples

Diamond Deep Brenda Cooper, 2013-10-08 What if a woman as strong and as complex as Eva Per n began her life as a robot repair assistant threatened by a powerful peacekeeping force that wants to take all she has from her The discovery ship *Creative Fire* is on its way home from a multi generational journey But home is nothing like the crew expected They have been gone for generations and the system they return to is home to technologies and riches beyond their wildest dreams But they are immediately oppressed and relegated to the lowest status imaginable barely able to interact with the technologies and people of the star station where they dock the *Diamond Deep* Ruby Martin and her partner Joel North must find a way to learn what they need to know and to become more than they have ever been if they are to find a way to save their people
