Whiteness Of A Different Color:

Whiteness of a Different Color Matthew Frye Jacobson, 1999-09-01 America's racial odyssey is the subject of this remarkable work of historical imagination. Matthew Frye Jacobson argues that race resides not in nature but in the contingencies of politics and culture. In ever-changing racial categories we glimpse the competing theories of history and collective destiny by which power has been organized and contested in the United States. Capturing the excitement of the new field of whiteness studies and linking it to traditional historical inquiry, Jacobson shows that in this nation of immigrants race has been at the core of civic assimilation: ethnic minorities in becoming American were re-racialized to become Caucasian.

Whiteness of a Different Color MATTHEW FRYE JACOBSON, **The Anatomy of Colorism in America** Robb Nelson, 2025-04-21 *The Anatomy of Colorism in America* addresses the significance that colorism, racial hierarchy, and white skin idealization have each had on the lives of individuals across multiple communities and how those experiences have compared with one another. These three complexion-based imperial systems—culturally, legally, politically, and socially divided persons based on differing skin shades, hair textures, eye shapes, facial angles, body types, or claims to mythical racial backgrounds—*The Anatomy of Colorism in America* argues that the practices associated with empire building and imperial expansion in America, such as manifest destiny, settler colonialism, and indentured servitude and slavery, all led to the creation of these complexion-based divisions. Once formed, these divisions led to socially damaging outcomes for the individuals perceived as nonwhite by the local Anglo-American settler colonial class. This book documents four locations and communities where such circumstances emerged and compares them. The four case studies investigated in this book include Blacks in Charleston, South Carolina; the Californios in Alta California; Mormons in Utah; and the relationship between Indigenous Hawaiians, Japanese immigrants, and Anglo-American whites in Hawaii.

The Fugitive Race Stephen P. Knadler, 2007-06 Denying its formative dialogues with minorities, the white race, Stephen P. Knadler contends, has been a fugitive race. While the white question, like the Negro question and the woman question a century earlier, has garnered considerable critical attention among scholars looking to find new anti-race strategies, these investigations need to highlight not just the exclusion of people of color but also examine minority writers' resistance to and disruption of this privileged racial category. Highly original, wonderfully detailed, and thought-provoking, says Professor Candace Waid of Knadler's intellectually challenging book. Although excluded people of color looked back in anger, laughter, and wisdom to challenge the unexamined lie of a self-evident whiteness. Looking at fictional and nonfictional texts written between 1850 and 1984, *The Fugitive Race* traces a long cultural and literary history of the ways African Americans, Asian Americans, Jewish Americans, Chicanos, gays, and lesbians have challenged the shape and meaning of so-called white identities. From the antebellum period to the 1980s, the belief in a white racial superiority or simply a white difference has denied that people of color might and do have an influence on the supposedly pure or protected character of whiteness. In contrast, this book attempts to define a new way of analyzing minority

literature that questions this segregated color line In addition to creating a new racial awareness many writers of color tried to interfere in the historical formulation of whiteness They created unsettling moments when white readers had to see themselves for the first time from the outside in or from the critical perspective of non white writers These writers including William Wells Brown Pauline Hopkins Abraham Cahan Young hill Kang Zora Neale Hurston and Arturo Islas did not simply resist assimilation They sought to dismantle the white identities that lay as the foundation of the master s house
