Who Slept There

Michael Seilmaier

Who Slept There:

Sexual Outcasts, 1750-1850: Sodomy Ian McCormick, 2000 *Sexual Outcasts* presents a wide range of texts selected to illustrate the diversity of responses to the concealed body and to the secret or forbidden sexual practices of 1750-1850. Each volume follows the means by which prohibitions and taboos were produced and circulated. The reader can therefore explore the processes that disciplined the representation of the body and the construction of sexual outcasts. This four-volume set presents a wide range of textual material: criminal reports, scientific and medical publications, newspaper items, sex manuals, guidebooks, speculative accounts, and case histories. The variety of sources permits a multiple perspective on the body, sexual drives, gendered psychologies, and perverse behaviour across the century.

Don't Sleep, There are Snakes Daniel Everett, 2010-07-09 Although Daniel Everett was a missionary far from converting the Pirahã, they converted him. He shows the slow, meticulous steps by which he gradually mastered their language and his gradual realisation that its unusual nature closely reflected its speakers' startlingly original perceptions of the world. Everett describes how he began to realise that his discoveries about the Pirahã language opened up a new way of understanding how language works in our minds and in our lives, and that this way was utterly at odds with Noam Chomsky's universally accepted linguistic theories. The perils of passionate academic opposition were then swiftly conjoined to those of the Amazon in a debate whose outcome has yet to be won. Everett's views are most recently discussed in Tom Wolfe's bestselling *The Kingdom of Speech*. Adventure, personal enlightenment, and the makings of a scientific revolution proceed together in this vivid, funny, and moving book.

State of New York Supreme Court Appellate Division Fourth Department, **Identification and Treatment of Alcohol Dependency** Professor Colin R. Martin, 2008 Colin Martin has brought together an excellent set of contributors to produce a truly comprehensive text that will ensure all interested professionals can not only update their knowledge but also better understand each other's roles and how best to help patients and clients through shared working to achieve a common goal of better health. This book is not just for people who see themselves as having a primary role in the field but also for those teachers, the police, and family members who live daily with its effects. Professor Dame Betty Kershaw, University of Sheffield, UK. Alcohol dependency represents an enduring problem for both the individual and wider society. Despite contemporary media coverage on increasingly dangerous levels of drinking in the United Kingdom, the fact remains that excessive alcohol consumption has been a distinguishing feature of Western society for generations. This book is arranged by a number of themed parts, largely representing the key areas in the process of facilitating access to effective clinical management. The book will also be of interest to the wider public who have an interest or concern in relation to alcohol dependency. Contents include: Part 1 Identification; Part 2 Medical interventions; Part 3 Psychological interventions; Part 4 Contemporary issues in the identification and treatment of alcohol dependency; Part 5 Clients with complex needs; Part 6 Reproductive and developmental concerns.
