Inner Quest Pandit Rajmani Tigunait, 2007-02-08 *Yoga is a philosophy of life and a systematic science that enables us to realize our true nature and experience union with the Divine. Drawn from the dialogue of Pandit Tigunait's bi-monthly Yoga International magazine Q&A column, this book weaves together hundreds of answers to the questions that face those on a spiritual path. In this inspirational book, Pandit Tigunait draws on knowledge he has gathered from the scriptures, from accomplished teachers, and from his own spiritual findings to answer profound questions on topics including Spirituality and finding the sacred in everyday life, Reincarnation and karma, Relationships, Death and dying, Meditation and understanding the mind, Health and healing, Mantra, Overcoming obstacles, Ayurvedic herbs, Choosing a path, Teachers and students, Higher consciousness and enlightenment. This second edition is more than twice as long as the first and incorporates new questions and answers that are guaranteed to deepen your insight on spiritual matters and yogic philosophy.* *Mindfulness, Mind-body Exercises, and Health Promotion* Guodong Zhang, Yang Cao, Zi Yan, 2025-02-14 High intensity sports and physical exercise have been linked to various health benefits. However, when it comes to increasing longevity, these activities may not be an ideal option for the general population. Mind-body exercise, which combines physical

exercise with mindfulness may be more effective in promoting and restoring health especially for those with chronic symptoms or poor health conditions Many mind body exercises such as Taichi Qigong Chan Chuang and Yoga have their roots in Eastern cultures They have gained popularity around the world and became a new fashion in the post COVID 19 era These exercises typically help practitioners shift their focus from the outside world past or future to the present moment through gentle body movements Mind body exercises emphasize the body s innate ability to heal itself By disconnecting from the noisy outside world the body is given the opportunity to heal This aligns with the classic belief in Chinese medicine that the body itself is the best medicine
