Head Strong Dave Asprey, 2017-04-04. From the creator of Bulletproof Coffee and author of the bestselling *The Bulletproof Diet*, comes a revolutionary plan to upgrade your brainpower in two weeks or less. For the last decade, Silicon Valley entrepreneur Dave Asprey has worked with world-renowned doctors and scientists to uncover the latest, most innovative methods for making humans perform better—a process known as biohacking. In his first book, *The Bulletproof Diet*, he shared his biohacking tips for taking control of your own biology. Now in *Head Strong*, Asprey shows readers how to biohack their way to a sharper, smarter, faster, more resilient brain. Imagine feeling like your mind is operating at its clearest and sharpest and being able, possibly for the first time in your life, to do more in less time. What if it suddenly became easier to do the very hardest things you do? Or if you could feel 100% confident about your intellect and never again fear being the person in the room who just isn't smart enough or can't remember something important? How would you treat people if the mood swings, short temper, and food cravings that disrupt your day could simply disappear? In *Head Strong*, Asprey shows us that all of this is possible and more. Using his simple lifestyle modifications or "hacks" to take advantage of how the structure of your brain works, readers will learn how to take their mental performance to the next level. Combining the latest findings in neuroscience and neurobiology with a hacker-inspired "get it done now" perspective, Asprey offers a program structured around key areas of brain performance that will help you power the brain with exactly what it needs to perform at its best all day long. Eliminate the sources of "kryptonite"—both nutritional and environmental—that make the brain slower. Supercharge the cellular powerhouses of our brains, the mitochondria, to

eliminate cravings and turn up mental focus Reverse inflammation to perform better right now then stay sharp and energized well into your golden years Promote neuron growth to enhance processing speed and reinforce new learning hotwiring your brain for success Asprey's easy to follow two week program offers a detailed plan to supercharge brain performance including which foods to eat and which ones to avoid how to incorporate the right kinds of physical activity into your day a detox protocol for your home and body meditation and breathing for performance recommended brain boosting supplements and how to adjust the lighting in your home and work space to give your brain the quality light it thrives on A better brain and a happier easier more productive life is within reach You just need to get Head Strong *Boundless 2nd Edition* Ben Greenfield, 2025-01-14 The Ultimate Resource for Health Performance and Longevity Just Got Even Better New York Times Bestselling author Ben Greenfield delivers the latest in cutting edge techniques products and protocols in his fully updated and revised blueprint for total human optimization What if the ability to look feel and perform at peak capacity wasn't the stuff of lore but instead a matter of simply knowing and following proven easy to understand systems and strategies In an ideal world you could have it all complete optimization of mind body and spirit and now you can Author biohacker and coach Ben Greenfield revealed how to have all the boundless energy you want at your beck and call and much more in his wildly popular book Boundless But because health and performance technology and science evolve at lightning speeds Greenfield has buckled down and used his industry knowledge voracious appetite for self experimentation and thousands of hours of personal research to deliver to you the brand new Boundless 2.0 Boundless 2.0 contains everything you need to easily implement every last human upgrade in existence into your daily routine from sleep to cognition hormones to fat loss immunity to beauty fitness to age reversal and beyond Key updates in the new Boundless 2.0 include How to turn up the volume on mitochondrial optimization density and biogenesis for maximizing your energy currency and minimizing risk of metabolic dysfunction New ways to stimulate your vagus nerve for beating stress sleeping soundly and increasing HRV including the best ways to use electricity light and sound to fine tune your nervous system Updated step by step systems for rebooting your circadian rhythm beating jet lag and optimizing sleep naps and meditation for the deepest relaxation and recovery Navigating the confusing world of fats and fatty acids while mitigating the damage of seed oils and decoding restaurant menus and packaged food labels The latest science on how EMFs and electromagnetic frequencies impact your brain and how to modify your appliances devices computers and smartphones to shield your body brain home and office more effectively How to increase libido and sexual performance go a longer time with more pleasure in the bedroom decrease time between orgasms and develop better deeper relationships The latest science on chronic stealth co infections mold mycotoxins detoxification Lyme CIRS chronic inflammatory response syndrome and more along with how to manage these issues safely and effectively A fully updated list of the best doctors on the planet and the medical teams and clinics who can help fix issues using smart precision diagnostic and functional medicine protocols Brand new smart drugs brain boosting peptides and
