Swarms, Viral Writing, and the Local Carl Whithaus, 2025-04-15 Swarms Viral Writing and the Local examines the social and rhetorical dynamics around emerging writing technologies Carl Whithaus argues that these dynamics work across networked publics as patterns of behavior and ways of interacting through and with multimodal texts This rhetorical analysis of the production and reception of born digital rhetoric shows the ongoing and evolving impacts of online public discourse that can lead to bad restaurant reviews or the subversion of democracy It is a networked process that gains significance because of the interplay and tensions between the global and the local As these texts are created distributed received and then recreated and shared again in viral ways different messages resonate across media ecologies Whithaus documents how emerging social dynamics shape and are shaped by digital writing reading and distribution technologies *Blood Bound: A Steamy Private Security Unexpected Love Romance* Samantha Cole, 2020-07-20 ROMANTIC SUSPENSE SINGLE MOM HEROINE MILITARY HERO An Emotional Romance About Unexpected Connections Dangerous Secrets and Building Forever One match changed their lives One mystery could tear it all apart Rylie Hart never imagined she'd become a mother overnight but when her best friend passes away she steps in to raise five year old Mickey as her own Just as they're finding their rhythm tragedy strikes again Mickey is diagnosed with leukemia and her only chance at survival is an anonymous donor Blackhawk Security CEO Chase Dixon never expected that donating bone marrow would change his life forever Fast forward a year he meets the little girl he saved and she captures his heart instantly but it's her fierce protective mother who brings him to his knees Just when Rylie starts to believe in happy endings Mickey's adoption is contested and a devastating secret comes to light Now Rylie's fighting not just for her daughter but for the man who's become her anchor in the storm Can she hold on to the life they've started or will the past steal it all away TROPES Single Mom Military Hero CEO Protector Romance Bone Marrow Donor Connection Child Custody Battle Steamy Romance Ready Made Family Unexpected Love Perfect for fans of Susan Stoker Cristin Harber and Chelle Bliss readers who love protective military heroes single mom heroines and BookTok worthy emotional romance with family stakes If you crave alpha protectors found family love and romantic suspense where family is everything then one click this impassioned romance now *Making a Metaverse That Matters* Wagner James Au, 2023-05-16 An up close account from the world's first metaverse embedded reporter In *Making a Metaverse That Matters* From Snow Crash Second Life to A Virtual World Worth Fighting For the celebrated author of *The Making of Second Life* and *Game Design Secrets* Wagner James Au delivers an engrossing exploration of how nascent metaverse platforms have already captured the imagination of millions Featuring powerful stories and dozens of incisive interviews with insiders including Metaverse creator Neal Stephenson himself the author uses his unique grassroots level perspective as the first reporter embedded in a metaverse platform Readers will learn about How to understand and define the Metaverse and cut through the many myths and misconceptions around it A behind the scenes account of launching Second Life the first

spaces On the other hand metaversal technologies are directly geared towards the body in that they not only seek to extend or expand our embodied senses and emplace our bodies in virtual spaces but they also seek to capture their behaviours and actions on a far more granular level This can create new opportunities in terms of work social interaction and leisure but can also open our bodies up to new tech driven interventions and control Whether in the form of VR or AR such technologies not only reproduce space but also rely on making spaces more legible and open to automated interventions Taken together the metaversification of spaces and bodies gives rise to crucial questions about the goals and implications of metaversal developments by large technology companies and about the relationship between the developments of the metaverse and AI systems Drawing on our combined background and expertise in Science and Technology Studies and the History of Media and Communication we critically analyse the development of metaversal technologies and platforms by discussing a broad set of developments and examples from a wide range of technology and gaming companies Written in clear concise and accessible language and combining and applying novel theoretical frameworks and concepts to a currently emergent phenomenon this book will find a large audience not only within academic and professional circles but also in popular culture
