Mystery of the Missing Bike

"I already put Timmy down for a nap. You can listen for him over the baby monitor," Mariah was watching Timmy, a nine-month old, while his mother ran errands.

"Okay, thanks, Mrs. Marcos. I'll stay right by the monitor here in the family room," Mariah checked the volume on the baby monitor then settled into a chair with her favorite book.

Half an hour later, Mariah heard the baby stir and start to cry. "Coming, Timmy!"

Mariah walked up the stairs and turned into the room Timmy shared with his teenage brother, Tony. She pulled Timmy from his crib, changed his diaper, and took him downstairs to feed him.

Just as she put Timmy in his high chair, Mariah was started to hear a voice over the baby monitor. "Yeah, I'll do it, I'll prove that I can take a dare by stealing a bike."

Mariah had no time to react. Mrs. Marcos was coming in the back door with bags of groceries. "Here, Mrs. Marcos, let me help you."

When Mariah returned home, her brother, Brandon, was sitting at the kitchen table drinking chocolate milk. Brandon's best friend, Jeff, sat on the counter. "I'd like some of that milk too," said Jeff. "Maybe I'll go down to the corner store and get some."

"Guess what happened while I was babysitting Timmy?" Mariah asked them. "I heard someone say they were going to steal a bicycle. The voice was coming from the baby monitor in Timmy's room."

"I'll bet it was his brother, Tony," said Jeff. He hangs out with some sorta rough guys. Look, I see them walking past the house now."

Understanding and Teaching Reading Emerald Dechant,2013-09-13 In the words of Aldous Huxley Every man who knows how to read has it in his power to magnify himself to multiply the ways in which he exists to make his life full significant and interesting Few people question the value of reading in fact most extol its virtues As our culture becomes more complex reading plays an increasingly greater role in satisfying personal needs and in promoting social awareness and growth In the last 20 years the teaching of this invaluable skill has focused so intensely on comprehension and prediction from context that it has lost sight of the significance of automaticity and fluency in the word identification process Reading is a synthesis of word recognition and comprehension thus this text is about these basic processes and their integration A common plea from teachers today is that research and psychology be translated into teaching behavior Therefore the aim of this book is twofold one to identify report organize and discuss those bits of data research and theory that are most relevant to the teacher s understanding of the reading process and two to help educators to interpret and apply theory and research data to everyday classroom teaching as well as to the problems encountered frequently in developmental and remedial teaching
