Brigham Hospital's staff of 75,000. Dr. Hashimoto offers a clear and compelling argument for the benefits of masking. In addition, he explains the complementary roles of social distancing, washing hands, coronavirus testing, and face shields, and a thorough exploration of what kinds of masks are most effective at stopping the spread of viruses and how they should be fitted and worn. He addresses safety concerns and medical misconceptions about mask wearing, why the CDC didn't recommend universal mask wearing at the beginning of the pandemic, and how employers can promote mask wearing in their workplaces. Don't wear a mask just because someone told you to. Find out the real reasons for masking and understand the science for yourself.
