## **The Metamorphoses:**

**Metamorphoses** Ovid,1955      **The Metamorphoses of Ovid** Ovid,1993 A treasury of classical myths It weaves together every major mythological story to display a dazzling array of miraculous metamorphoses from the time chaos is transformed into order at the moment of creation to the time when the soul of Julius Caesar is turned into a star and set in the heavens      *The Metamorphoses* Ovid,1958 Ovid's magnificent panorama of the Greek and Roman myths presented by a noted poet scholar and critic Prized through the ages for its splendor and its savage sophisticated wit The Metamorphoses is a masterpiece of Western culture the first attempt to link all the Greek myths before and after Homer in a cohesive whole to the Roman myths of Ovid's day Horace Gregory in this modern translation turns his own poetic gifts toward a deft reconstruction of Ovid's ancient themes using contemporary idiom to bring to today's reader all the ageless drama and psychological truths vividly intact      **The Metamorphoses** Ovid,1960-05 Ovid's magnificent panorama of the Greek and Roman myths presented by a noted poet scholar and critic Prized through the ages for its splendor and its savage sophisticated wit The Metamorphoses is a masterpiece of Western culture the first attempt to link all the Greek myths before and after Homer in a cohesive whole to the Roman myths of Ovid's day Horace Gregory in this modern translation turns his own poetic gifts toward a deft reconstruction of Ovid's ancient themes using contemporary idiom to bring to today's reader all the ageless drama and psychological truths vividly intact      **The Metamorphoses (Translated and Annotated by Henry T. Riley)** Ovid,2017-01-28 Perhaps one of the most influential works of mythology ever written The Metamorphoses is an epic and narrative poem by Roman author Ovid Finished in 8 A D this work organized into fifteen books combines a stunning arrangement of mythological tales that are masterfully connected by a theme of transformation most often through love Beginning with the world's creation the poet utilizes unparalleled wit to describe the history of the world incorporating the most commonly known Greek and Roman myths and legends of his time in a style both dramatic and mischievous Ovid's often sensuous poems weave together the tales of Daedalus and Icarus Pygmalion Persueus and Andromeda the Trojan War and the deification of Augustus frequently changing the human men and women into remarkable beings with magic that rivals that of the gods The best known classical work to writers during the medieval period and influencing other great artists such as Shakespeare and Titian The Metamorphoses is indubitably a work that will continue to endure and inspire throughout the coming ages This edition is printed on premium acid free paper and follows the translation with annotations by Henry T Riley      *Women in the Ancient World* John Peradotto,John Patrick Sullivan,1984-01-01 One of the reasons for the study of the Greek and Roman classics is their perpetual relevance In no area can this position be more clearly defended than in the investigation of the feminine condition for it was here that basic attitudes derogatory to the sex were molded by legal and social systems by philosophers and poets and by the thinking of men long since gone *Women in the Ancient World* brings together essays that examine philosophy social history literature and art and that extend from the early Greek period through

the Roman Empire Their wide range of critical perspectives throws new light on the personal political socio economic and cultural position of women

The Augustan age was one in which writers were constantly reworking the Roman past and which was marked by a profound engagement of poets with the historians and historical techniques which were the main vehicle for the transmission of the image of the past to their day In this book seventeen leading scholars from Europe and America examine the fascinating interaction between such apparently diverse genres how the Augustan poets drew on or reacted against the historians presentation of the world and how conversely historians picked up and transformed poetic themes for their own ends With essays on poems from Horace s Odes to Ovid s Metamorphoses on authors from Virgil to Valerius Maximus it forms the most important topic so central to such a particular relevant period of literary history
