The Mind Keepers:

The Mind Keepers Kenneth D. MacLean, 2006 *The Mind Keepers, a Novella*, 2013 Check out the exciting conclusion to the Mind Readers series It's been months since everything familiar in Nora's life vanished into the unforgiving waters off the Savannah coast leaving her with nothing but her powers of mind reading Although she's lost her mother and her home Nora has managed to move on thanks in part to her sister Cameron the only family she has left Perhaps someday she can forget the pain she has endured if only the past would stop haunting her Before she can truly move on and accept the relative normalcy of her new life there are a few things she has to uncover What happened to Maddox the one guy to betray her trust and stomp on her heart Did he escape S P I's clutches or is he being held a prisoner as Cameron believes But Maddox is the least of her worries when someone starts stalking Nora's every move a woman who looks eerily like her dead mother For Nora time is running out In the end she must learn to trust not only in herself but also her dangerous new powers before it's too late to save the only guy she's ever loved The Mind Readers Series in Order The Mind Readers book 1 Ebook version is free The Mind Thieves book 2 The Mind Games book 3 The Mind Keepers a novella The Mind Keepers is a short story that contains kissing and cursing and is best for ages 14 and up This short story is approximately 45 000 words in length and contains two sample chapters from Lori's newest book Make Me a Match **The Mind Club** Daniel M. Wegner, Kurt Gray, 2017-03-21 Compelling and so beautifully written The Mind Club deftly brings the most up to date research about other minds to readers of all backgrounds It may cause you to think differently about crime and punishment about business transactions and health care and even about the upcoming elections Things might just start looking up The Wall Street Journal From dogs to gods the science of understanding mysterious minds including your own Nothing seems more real than the minds of other people When you consider what your boss is thinking or whether your spouse is happy you are admitting them into the mind club It's easy to assume other humans can think and feel but what about a cow a computer a corporation What kinds of mind do they have Daniel M Wegner and Kurt Gray are award winning psychologists who have discovered that minds while incredibly important are a matter of perception Their research opens a trove of new findings with insights into human behavior that are fascinating frightening and funny The Mind Club explains why we love some animals and eat others why people debate the existence of God so intensely how good people can be so cruel and why robots make such poor lovers By investigating the mind perception of extraordinary targets animals machines comatose people god Wegner and Gray explain what it means to have a mind and why it matters so much Fusing cutting edge research and personal anecdotes The Mind Club explores the moral dimensions of mind perception with wit and compassion revealing the surprisingly simple basis for what compels us to love and hate to harm and to protect **The Bee-keeper's Guide** Albert John Cook, 1894

Seasons of the Mind Bernard S. Raskas, 2001-01-01 Rabbi Bernie Raskas has been living and teaching his faith for over 50 years He offers witty yet practical commentary on life faith and spirituality *The Bee Keepers' Review*, 1890 The
